Dear Sir

**Application No: NRW-WQE 048008**

Please find enclosed two copies of completed application form Part B6.5 together with supporting documentation.

My reasons for applying for a permit to install a mini treatment plant at my property is mainly on environmental and cost effective grounds. As there is no mains sewer serving any of the properties in Capel Dewi, all of my domestic waste is currently piped into a cesspool which, I understand, is a system which is outdated and is being actively discouraged. I have spoken to a planning officer at my County Council who feels that, subject to your approval, my application would be granted.

In addition, I should like to add that the newly constructed bungalow two doors away from me has already received a permit from yourselves to discharge domestic waste into the same drainage system that I wish to use and which passes through my garden.

I have calculated the amount of discharge based on your criteria for a 3 bedroom property. However, I should like to add that my wife and I are the sole occupiers of the bungalow and that nobody else resides with us. Having only lived here for just over three years, and both being retired, we have no plans to move.

I understand that the cost involved in purchasing and installing the mini treatment plant is quite high but, as stated previously, cesspools are not regarded as being either environmentally friendly or cost effective and the initial outlay will more than compensate.

I should also like to state that the company from whom I intend to purchase the system, All Pumps of St Clears, Carmarthen, have recommended the particular treatment plant, copy enclosed, and have provided me with the name of the contractor whom they use. I have spoken to the gentleman concerned and understand that he has a vast amount of experience in this field.

In conclusion, I hope that I have completed the form to your satisfaction but should you require any additional information I shall be pleased to provide it.

Thank you very much for your kind consideration.

Yours faithfully
