Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the surrender in part and variation of an environmental permit.

This part surrender is removing areas of the installation which is no longer required as part of the permitted activity. There is no change to the emissions to air, water and land. The Operator has submitted a new site boundary and a site condition report as part of the surrender. We consider both to be satisfactory.

Any changes made as a result of the part surrender are set out in the schedules.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
