### Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

A routine site inspection was undertaken on Tuesday 11 January 2020.

### Operations & Security

The site is considered non-operational and is currently not accepting, storing or treating any waste materials.

The site appears to be kept secure, even if the site is non-operational. The site is occupied by City and County of Swansea.

### Change of Use

The City and County of Swansea are currently storing a number of empty skips. These skips did not appear to contain any waste.

Should the council wish to use the yard for the storage/treatment of waste, they must do so in accordance with the conditions contained in the Environmental Permit. Responsibility for permit compliance still lies with United Recycling Aggregates Limited, as the permit holder.
