Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

The schedules specify the changes made to the permit.

This variation is to authorise the following changes to the regulated activity:

- Processing of dust from the milling of the following waste codes within the chemical treatment plant:
 - EWC 10 03 29* - wastes from treatment of salt slags and black drosses containing hazardous substances
 - EWC 10 03 30 – wastes from treatment of salt slags and black drosses other than those mentioned in 10 03 29*
- The addition of waste code EWC 10 03 16 – skimmings other than those mentioned in 10 03 15*, to the permit for the following activities; Storage, Repackaging, and Chemical Processing.
- An increase in the maximum permitted quantity of dross for storage from 3,000 tonnes per day to 4,500 tonnes per day.

These changes have been consolidated into the permit. The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
