

Natural Resources Wales

Our ref: RML1922v1

9 March 2020

Dear Aled Iorwerth Jones,

MARINE AND COASTAL ACCESS ACT 2009: PART 4 – MARINE LICENSING

**LICENCE FOR OPENING THE AFON DYSYNNI CHANNEL FOR INTERNAL DRAIN
DITCHES AND FLOOD RISK**

LICENCE NUMBER: RML1922v1

I am pleased to advise you that the Marine Licensing Team within Natural Resources Wales, on behalf of the Welsh Ministers, as Licensing Authority, has considered Natural Resources Wales email dated 24 December 2020 requesting a extension to a Marine Licence under Part 4 of the Marine and Coastal Access Act 2009, and hereby grant the Marine Licence for you to undertake the above stated works.

Accordingly, please find attached for your review and retention a copy of Marine Licence **RML1922v1** and its conditions. Please note that Marine Licence **RML1922v1** supersedes Marine Licence **RML1922** in its entirety.

Licence condition 8.10 has been varied.

The condition originally stated that no works may take place between 18 October to 30 May inclusive.

The condition now states that no works may take place between 1 April to 30 June inclusive.

Please note that condition 5.2 has also been amended to include the up to date enforcement email address.

Advisory Note

NRW Technical Experts have advised that should works take place in March, a competent ornithologist should survey the surrounding area and manage appropriate buffer zones for cormorants and other important breeding and nesting birds in the area.

Marine Licence, **RML1922v1**, constitutes a statutory consent; therefore the conditions set out herein must be complied with in full and will be binding upon any agent or contractor who undertakes any activity on the project on your behalf.

Marine Licence, **RML1922v1** is solely granted for the work to be undertaken with the area specified in the Licence; however, it does not absolve you from applying for further consents or licences as necessary to enable the full completion of your project.

If the works authorised by this Licence are unlikely to be completed by the expiry date, the Licence Holder should apply for a replacement marine licence **at least 4 months** prior to the expiry date of this Licence.

Should you require clarification as to the reasons for the inclusion of any of the conditions attached to the Licence then you must request written notice within 28 days of the receipt of this letter.

Finally, once again, please ensure you have read and understood Marine Licence **RML1922v1**. Should you have any queries with regards to your Marine Licence then please do not hesitate to contact the Marine Licensing Team.

The UK left the EU on 31 January 2020 and has entered a transition period until the 31 December 2020. The legal obligations relating to compliance with environmental permits and legislation continue to apply. NRW will continue to issue and regulate all permits and licenses in line with our current practice. If you have any questions about your permits or licenses and/or site management, please contact our Customer Care Centre on 03000 653 000.

Yours sincerely

Jodie Pullen
