Permit number EPR/PB3490HV**

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This is an operator led variation of a Tier 3 bespoke permit for a non-hazardous, household, commercial and industrial waste transfer station with treatment.

The variation is to:

- expand the area of land in which it is allowed to store and treat waste to include units 29 and 29a;
- increase the types of wastes it is allowed to store and treat; and
- to amend the permitted treatment processes to baling and bulking up of waste only.

Waste coded as 19 12 12 (other wastes (including mixtures of materials) from mechanical treatment of wastes other than those mentioned in 19 12 11) has been removed from the permit at the request of the operator in the first response to the Schedule 5 Notice dated 17/09/19.

The site name has also been updated.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Permit issued EPR/CB3793HE/A001	16/01/15	Permit for a waste transfer station with treatment issued to Pembrokeshire County Council.
Transfer determined EPR/PB3490HV/T001 (formerly EPR/CB3793HE)	27/03/15	Permit transferred in full to Sundorne Products (Llanidloes) Limited.
