Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
--	--------------	-----------------------

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.

A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,

O = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0
-----------------------------	---	--	---

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Section 2 – Compliance Assessment Report Detail

This section contains a report of our findings and will usually include information on:

- The part(s) of the permit that were assessed (eg. Maintenance, training, combustion plant, etc)
- Where the type of assessment was 'Data Review' details of the report/results triggering the assessment
- Any non-compliances identified
- Any non-compliances with directly applicable legislation
- Details of any multiple non-compliances
- Information on the compliance score accrued inc.
- Details of advice given
- Any other areas of concern
- Any actions requested
- Any examples of good practice
- A reference to photos taken

On Thursday 6th June 2019 Liz Park and Julia Lloyd carried out the first site inspection of Kirkmansfield Depot we met with Iona Price and Mark Francis. The site is operated by Powys County Council. We met to discuss how NRW regulate waste operations and to discuss their responsibilities as an operator.

The “**First Inspection Checklist**” was discussed and completed. Liz Park went through the inspection checklist, it was explained that part of work planning with new permits is to carry out a site inspection within 3 months of the permit being issued.

Technical Guidance - It was discussed how the site needed to comply with their environmental permit and the technical guidance which is available to them. Iona was not aware of the guidance, Link to guidance to be sent Iona.

Environmental Management System -Electronic document requested, drainage plan to be requested from engineering. These have now been received and will be reviewed.

Technical competence – Kyle Cheshire, the Operational Area Manager, is TCM. Informed he spends 3 days a week in Newtown. Required attendance is to be checked and reviewed.

TCM presence has been calculated as 10% of operation hours (see page 37 of how to comply for full details). Therefore the appropriate TCM attendance is being undertaken. Justin Leadbetter is the Highways Supervisor and will be onsite full time.

Waste Returns – These are dealt with by Mike Smith, Administrator.

Compliance Assessment Report – Discussed, CAR forms to be emailed to Kyle Cheshire.

Public Register – It was explained that the Compliance report will be put onto the public register.

Duty of Care – Waste transfer notes were discussed.

Hazardous Waste Regulations – Discussed

Site – On inspection of the site it was found to be well organised, clean and tidy. Bays are new and drainage in good condition.

Thank you for your time during the visit.

In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) order 2012.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories

CCS category	Description	Score
C1	A non-compliance that could have a major environmental effect	60
C2	A non-compliance which could have a significant environmental effect	31
C3	A non-compliance which could have a minor environmental effect	4
C4	A non-compliance which has no potential environmental effect	0.1

Operational Risk Appraisal (Opra) - Compliance assessment findings may affect your Opra score and/or your charges. This score influences the resource we use to assess permit compliance.
