

REF
NYFFRYN (2)

Natural Resources Wales.

Suzanne Lamm

Dear Madam.

In response to your letter 'how to calculate water usage on farms, I enclose details:-

390 Dairy cows	drinking & wash water	$92 + 18 = 110$	$= 42,900$ litres
220 dairy calves	drinking ⁵ only		$1,100$ litres
Total			<u>44,000.00</u>

Domestic use —

Nyffryn (2 persons)	250 litres
Nyffryn Newydd (1 person)	125 litres
Rhinwal (2 adults 2 children. 4 people)	500 litres.
Care Bach (summer rented average 2 persons)	250 litres.
Total	<u>1,125 litres</u>

I hope this is enough information for you to be able to licence us for the abstraction of water — Yours faithfully
Clarrie Davies
