Dear Alex

Re: Invalid Application – PAN-008546

Many thanks for the letter dated 10/01/2020. I do apologise for not having completed the application form. I can confirm:

1. I can confirm the name for the Licence is to be Judith McConnel, no other Trustees need to be named
2. I have amended the Rights of Access map to include the Abstraction Point
3. I do Confirm that the Abstraction point is SO 45645 18559
4. Water Efficiency: "Tickle Irrigation conserves the water by optimising the water directly to the base of the plant / bush. It is regularly monitored to keeping the soil around the bush damp. We only irrigate as a last resort, when the bush is showing signs of stress, this encourages the bush to lay down a good root structure itself. All land drains and brooks feed into the Lake and the flow out is control by a sluice gate"
5. The fees of £135.00 was paid by BACS on 07/01/2020

I have amended the application form to reflect those points that were incomplete.

I trust this meets your approval.

Yours sincerely,

Fiona Powell
