### Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
A1 - Specified by permit	A	
B3 - Infrastructure - Site drainage engineering (clean and foul)	A	
B4 - Infrastructure - Containment of stored materials	A	
C3 - General Management - Materials acceptance	A	
C4 - General Management - Storage, handling labelling and Segregation	A	
D1 - Incident Management - Site security	A	
G4 - Monitoring and Records, Maintenance and Reporting - Reporting and notification to Natural Resources Wales	A	

**KEY:** See Section 5 for breach categories, suspended scores will be indicated as such.  
**A** = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,  
**O** = Ongoing non-compliance, not scored.

<b>Number of breaches recorded</b>	<b>0</b>	<b>Total compliance score</b> (see section 5 for scoring scheme)	<b>0</b>
------------------------------------	----------	---	----------

**If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response**

### **GLJ Recycling Limited – Crosskeys Yard**

Officer Jonathan LEE in attendance of GLJ Recycling Limited, Islwyn Road, Newtown Industrial Estate to complete a routine compliance inspection of the permit **EPR-EB3232AV**. The permit is for the operation of a Standard Rules SR2008 No20 facility – 'vehicle storage, depollution & dismantling (authorised treatment) facility'.

The visit was arranged to complete a final inspection of the facility, as the operator is intending to submit a permit surrender application.

It was cool with light rain at the time of the inspection. Met with company director Gareth Jones.

#### **Compliance**

The site was non-operational and there were no permitted activities taking place at the time of the inspection.

It was noted in the previous site inspection completed by officer Craig Coleman on the 05/11/2018 (*CAR\_NRW0034215*), that there was a stockpile of waste fines/ferrous oxide present on the site. This incurred a Category 3 Breach and a requirement to remove the stockpile of waste to a suitably permitted facility.

During the inspection it was noted that considerable efforts had been made by the operator to remove this stockpile of waste from the site, in order to facilitate the surrender of the site permit. It was noted that it had been removed to a permitted site in Barry Dock operated by South Wales Exports Limited.

There were several skips and trailers being stored in the permitted area at the time of the inspection. However, these did not contain any controlled wastes.

Photographs of these points are displayed below.

There was no ongoing pollution risk to ground or water identified during the inspection.

No compliance breaches were identified during the inspection.

### Permit Surrender

With consideration of the inspection observations and having reviewed historical site compliance information, it is recommended that a **low risk surrender** application be submitted to Natural Resources Wales.

Application forms Parts A, E2, F1 and CC1 should be submitted alongside a H5 Site Condition Report which is completed in line with the H5 Guidance as part of the surrender application.

### Summary

If you have any queries regarding this Compliance Assessment Report or the permit surrender application please contact regulatory officer Jonathan Lee on 0300 065 3908, or via email at

### Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.

### Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

## Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

**See our Enforcement and Civil Sanctions guidance for further information**

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

### Non-compliance scores and categories

CCS category	Description	Score
C1	A non-compliance that could have a major environmental effect	60
C2	A non-compliance which could have a significant environmental effect	31
C3	A non-compliance which could have a minor environmental effect	4
C4	A non-compliance which has no potential environmental effect	0.1

**Operational Risk Appraisal (Opra)** - Compliance assessment findings may affect your Opra score and/or your charges. This score influences the resource we use to assess permit compliance.
