Licence serial number(s): _____

As the Holder of the above licence(s), I would like to apply for my yearly charges for the licence(s), which authorises spray irrigation only to be charged under a two-part tariff arrangement, as set out in Schedule 2 of Natural Resources Wales' Abstraction Charging Scheme.

I understand that this arrangement will stay in force for five years, and then every year after this. This arrangement may end sooner if:

- a) my licence comes to an end, is cancelled or is transferred to another person;
- b) I apply to you to end the agreement; or
- c) there is a change of circumstances, which allows you to end the agreement.

I declare that (delete either 1 or 2 as appropriate):

1) My abstraction (water use) will be measured by the following meter.

Make: tbc Type: tbc Serial number: tbc

I will only use this meter to measure abstraction authorised by this licence. I will record meter readings every day and keep them available for inspection at reasonable hours for at least two years. I will send you meter readings when asked.

2) I do not plan to abstract water for spray/trickle irrigation [delete as appropriate] for the year ending 31 March _____
