Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Liz Park arrived onsite to serve a Regulation 36 Enforcement Notice to take specified steps in relation to a breach of permit conditions.

The following non-compliance has been identified:

B2 - Infrastructure - Closure and decommissioning - Permit Condition 6.1.1 - CCS Cat 3

Natural Resources Wales has reasonable grounds to believe that the specified waste management operations will not resume within 2 months. Therefore all waste remaining on site must be removed including clearing plant, equipment used in the specified waste management operations, and emptying any sealed sumps and interceptors.

A further Regulation 36 Notice has been served. The Notice together with a Letter to confirm non-compliance with a notice (for the Regulation 36 Notice dated 25/02/1019) was attached the remaining part of the boundary wall.

Please see the Regulation 36 Notice dated 07/05/2019 for details.

As a notice has been served, the CCS Cat 3 score has been suspended.

The following was observed on site:

Liz Park met with Steve Foxley and Tom Foxley. They were in the process of sorting the remaining waste on site.

There is some additional waste on the site which has been removed from Unit 10 which was leased by KRS Recycling Ltd.

Steve Foxley confirmed that the oil interceptors had been emptied and cleaned out by Mayglothing.

A diesel fuel tank in the waste pile could be seen to be leaking oil. Steve and Tom put sawdust on this leak.
