Variation number

PAN-004258/V002

Permit number

PAN-004258

Sandycroft Peak Power Electricity Generation Facility

Permit number PAN-004258

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This permit variation is for the continued permitted operation of a peak power electricity generation facility located on land at Factory Road. The installation is made up of three natural gas-fired electricity generators (combined Medium Combustion Plant/Specified Generator) with a total thermal input of 13.17 MWth. This variation increases the operating hours of the three natural gas-fired electricity generators from 2000 hours per year to 2400 hours per year.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Application PAN-004258 received on 20/12/2018	Duly made 23/05/19	Application for new medium combustion plant / specified generator permit.
