

## APPLICATION FOR A MARINE LICENCE FOR MARINE WORKS

**Marine Works include, but are not limited to, coast defences, beneficial uses of dredged materials, subsea cables, pontoons, jetties, land reclamation, grab samples and outfall pipes under the Marine and Coastal Access Act 2009**

Please read the notes carefully before completing the form.

- The Marine Licensing Team (MLT) administers Part 4 of the Marine and Coastal Access Act 2009 on behalf of the Licensing Authority, the Welsh Ministers.
- The completed application form must be accompanied by a location plan and, where appropriate, descriptive drawing(s) and any supporting environmental assessments. One completed hard copy of the application and supporting documents will always be required. Additional copies are required for consultation purposes.
  - For application and supporting documents less than 10MB we can accept an additional copy via email.
  - For applications larger than 10MB **16** additional copies in CD/DVD format will be required
  - When applications and supporting documents are hard copy only **16** copies will be required.
- Please submit applications to the **Permit Receipt Centre** via the details at the top of this form
- Please submit marine licence applications, including this form and all supporting documents, **at least 4 months before the licence is required.**

**Some projects may raise matters that require a significantly longer time for consideration.** These are most likely to be:

- Projects that fall **within** The Marine Works (Environmental Impact Assessment) Regulations 2007 – as amended requiring an Environmental Statement
- Large scale projects with substantial volumes of material being deposited or excavated
- Works requiring an Appropriate Assessment to be conducted under The Conservation of Habitats and Species Regulations 2017.
- Information should be provided about the anticipated **duration of the entire project** in respect of works below/seaward of Mean High Water Spring (MHWS). Where appropriate, planned phasing of the work for which consent is sought must be detailed. For projects lasting more than one calendar year, planned phasing details must be given for each 12 month period.

A licence fee is payable in respect of an application. Details of fees can be found on our web pages.

**Please note applications will not be processed without the correct relevant fee or invoicing details.**

- Payments can be made via Cheque, BACS or credit/debit card.
  - Cheques should be crossed and made payable to **Natural Resources Wales.**
  - For BACS payments ensure you provide the reference number (not remittance number)

- For credit/debit card payments please complete the CC1 form and submit with the application. The CC1 form can be found on our web pages

Further information on payment methods can be found on our web pages

- **All activities need to comply with the Water Framework Directive (WFD). The framework and guidance can be found on the Natural Resources Wales website, <http://naturalresources.wales>. The results of your WFD assessment must be attached to your marine licence application.**
- Please answer all questions. If any information is not available at the time of application please indicate in the relevant section, giving reasoning in a covering letter. Outstanding details must be submitted as soon as possible. Any delay in forwarding details is likely to result in delays in determining your application.

**Your application may not be considered complete and therefore not processed until key information has been submitted. Your application may be returned if you fail to submit outstanding information within given timescales.**

- Please note any licence may have conditions that must be discharged before works can commence. This will take additional time.
- If you have any queries with regards to completing this application please contact the MLT: [marinelicensing@naturalresourceswales.gov.uk](mailto:marinelicensing@naturalresourceswales.gov.uk)

#### How your application will be processed by the MLT:

- Submit all application to the **Permit Receipt Centre** via the details at the top of this form.
- Checked and acknowledged by the MLT within 21 days of receipt of application and payment
- If the application is complete and no further information is needed at this time, your application will be placed in a work queue to be assigned a permitting officer
- If the application is not complete, further information will be request and need to be provided before the application can be considered as complete
- Our **4 months** service level for determining non-EIA applications will begin from the date the **completed** application is received (*Please note some projects may take significantly longer than 4 months to determine due to their nature*)
- EIA projects may take significantly longer due to their scale and complexity. Therefore we encourage early engagement with the MLT
- Your application and supporting documents will be sent to for an initial consultation period of 28 days (*42 days for EIA projects*)
- For the majority of projects, a public notice must be advertised. Public consultation will be 28 days (*49 days for EIA projects*).  
For EIA projects a second public notice will be required. The MLT will advise on how this should be done.
- Responses to consultation will be considered and additional information requested at this time, if necessary.

- A decision on your Marine Licence Application will be made

All information submitted may be referred to within a licence, therefore all works must be in accordance with this information, unless otherwise agreed with NRW acting on behalf of the Licensing Authority during the determination process.

**It is the responsibility of the applicant to obtain any other consents/authorisations that may be required.**

### Application Form Structure

1. Project Description and Cost
2. Applicant Details
3. Details of Agent, Contractor, Vehicles and/or Vessels used to carry out works
4. Environmental Impact Assessment (EIA)
5. Licensable Period
6. Project Description
7. Methods Statement
8. Materials of Project
9. Beach Replenishment, Land Reclamation or Salt Marsh Feeding
10. Temporary Works
11. Dredge and Disposal of Dredge Material
12. Protected Sites
13. Other Consents
14. Statutory Powers
15. Public Register
16. Application Fee
17. Declaration

### Check List

Please ensure that you have included all the necessary information before you submit your application. **If any of the below are not completed in the application form, the application is likely to be considered incomplete and may be returned to you**

| Item   | Yes (✓) |
|--|---------|
| The applicant is a legal entity?   |         |
| The declaration is signed by the applicant?  |         |
| Is the application fee correct?  |         |
| Are the grid references/coordinates correct?   |         |
| Do the coordinates match map locations?  |         |
| Have all the relevant supporting documents been submitted?   |         |
| Has a clear methodology been provided in the application form?   |         |
| Has Protected sites information been included?   |         |
| Has a Water Framework Directive (WFD) assessment been submitted?                                       |         |
| Are all the continuation sheets for application questions appended with correct corresponding numbers? |         |

**Should you have any queries regarding your application please contact the MLT via [marinelicensing@naturalresourceswales.gov.uk](mailto:marinelicensing@naturalresourceswales.gov.uk)**

## 1. Project Description and Cost

### 1 (a). Project Name

Flagstaff Site Investigation

### 1(b). Please provide a brief description of the proposed project, including location

To carry out Site Investigation work in the Dee estuary by means of 15 Core Penetration Tests (CPT'S's) 15 Vibrocores and 10 Boreholes at the locations shown in yellow, green and red respectively (Annexes 5 & 6) between Waypoints A-I on the Location Plan attached (Annex 1).

The positions of the individual Waypoints are shown in WGS 84 (Annex 2).

### 1(c). Please provide an estimated gross cost of the project (Inc. materials and labour) for works that fall below/seaward of Mean High Water Springs (MHWS)

Approx £150k

## 2. Applicant Details

To whom the licence will be issued. *This must be a legal entity such as an individual, registered company/ charity or public body.*

|  |   |           |             |
|--|---|-----------|-------------|
| Title  | Mr  | Full Name | Jim O'Toole |
| Company or Trading Name  | The Port of Mostyn Ltd  |           |             |
| Company Registration Number (if applicable)                              | 2804520   |           |             |
| Name of Contact or individual (if different)                             |   |           |             |
| Position in Company  | Managing Director   |           |             |
| Address inc. postcode (provide registered Company address if applicable) | The Port of Mostyn Ltd<br>Coast Road<br>Mostyn<br>Flintshire<br>CH8 9HE |           |             |
| Telephone Number   | 01745 560 335   |           |             |
| Email Address  | jim.otoole@portofmostyn.com   |           |             |

### 3. Details of Agent, Contractor, Vehicles and/or Vessels used to carry out works

#### 3(a). Agent Details

*This is who we will correspond with unless otherwise informed. If no agent we will contact the applicant.*

|  |                      |           |                                  |
|--|----------------------|-----------|----------------------------------|
| Title  | <input type="text"/> | Full Name | <input type="text" value="N/A"/> |
| Company or Trading Name                      | <input type="text"/> |           |                                  |
| Company Registration Number (if applicable)  | <input type="text"/> |           |                                  |
| Name of Contact or individual (if different) | <input type="text"/> |           |                                  |
| Position in Company                          | <input type="text"/> |           |                                  |
| Address (Inc. postcode)                      | <input type="text"/> |           |                                  |
| Telephone Number                             | <input type="text"/> |           |                                  |
| Email Address                                | <input type="text"/> |           |                                  |

3(b). Does the Applicant wish to be included in all correspondence? Yes  No

#### 3(c). Contractor Details

In order for contractors to benefit from the licence permission, details must be provided. Any details not provided with application must be confirmed before operations commence.

| Contractor Company or Trading Name | Address  |
|------------------------------------|--|
| Insitusi Ltd                       | Phase 1 – Vibrocore and CPT Tests<br>Innovation Centre – Unit 23 – Highfield Drive – St Leonards On Sea – East Sussex – TN38 9UH |
| Red7 Marine I&C Ltd                | Phase 2 - Borehole Tests<br>Harbour Landing -Fox's Marina – Wharstead – Ipswich – 1P2 8NS  |

3(d). Will the works require the use of vessels?

Yes  No

**3(d) (i). Vessel Details (if applicable and available)**

In order for contractors to benefit from the licence permission, details must be provided.

*Any details not provided with application must be confirmed before operations commence.*

| Operator               | Name of Vessel | Type of Vessel | Vessel Registration Number | Country of Registration |
|------------------------|----------------|----------------|----------------------------|-------------------------|
| Carmet Marine Services | Vital          | Workboat       | MMSI 235100118             | U.K.                    |
|                        |                |                |                            |                         |
| Red7 Marine            | Haven Seajack  | Modular Barge  | N/A                        | N/A                     |
|                        |                |                |                            |                         |

3(e). Will the works require the use of vehicle?

Yes  No

**3(e) (i). Vehicle Details (if applicable and available) to be used below MHWS**

In order for contractors to benefit from the licence permission, details must be provided.

*Any details not provided with application must be confirmed before operations commence.*

| Operator | Type/Description of Vehicle |
|----------|-----------------------------|
|          |                             |
|          |                             |
|          |                             |
|          |                             |

**3(f). If the contractor or vessels or vehicles are not known at the application stage, when do you expect to provide these details?**

*These details will need to be confirmed prior to the licence and operations commencement*

The workboat "Vital" has been provisionally booked for the Vibrocore and CTP work as detailed in the Method Statements however the charter cannot be confirmed until the License has been granted.

The modular non-propelled barge Haven Seajack has been provisionally booked for the Borehole work (to be confirmed).

#### 4. Environmental Impact Assessment (EIA)

Certain projects, due to their scale, location and/or nature, may require an EIA under the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended). If a project qualifies under EIA, an Environmental Statement (ES) must be prepared and submitted with the application.

Projects that fall within Annex I of the Directive automatically require an EIA. Projects that fall within Annex II of the Directive are assessed on a case-by-case basis for the requirement for an EIA to be undertaken.

4(a). Do you consider the works to be under the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended)? Yes  No

4(a) (i) If Yes, which Annex does the proposal fall under? Annex I  Annex II

4(a) (ii) Which number(s) within the Annex does the proposal relate to?

4(b). Have you applied for a screening or scoping opinion from the MLT under the Marine Works (Environmental Impact Assessment) Regulations 2007 (as amended)? Yes  No

4(b) (i). If Yes, please provide the reference number

4(c). Has an Environmental Impact Assessment been undertaken? Yes  No

4(c)(i). If Yes, has an Environmental Statement been submitted to support this Marine Licence application? Yes  No

4(d). If an Environmental Impact Assessment has been undertaken, but an ES has not been submitted, please provide an explanation

Please continue on a separate sheet if necessary. Please tick if you have done this

#### 5. Licensable Period

Determination of applications will be based on the works taking place during these dates. Please ensure you have included an adequate contingency period. If works are not completed by the Requested Licence Expiry Date you may be required to submit a new application. *Including a contingency period within your original application does not impact on Licence Fee*

Start Date

Requested Licence Expiry Date

Please ensure you submit your application for a Marine Licence **at least 4 months** prior to the intended start date. Some projects, such as EIA projects, will take significantly longer to determine.

## 6. Project Description

### 6(a). Please give a description of the proposed project.

This should include the purpose of the project, estimated timescales of construction and operation, and broken down by the phases of works, if applicable.

Details should include, but not be limited to, dimensions of project, quantity of material being deposited and removed.

The project is to carry out a series of ground condition investigations in two phases by means of Cone Penetration Tests, Vibrocores and Boreholes at locations along a 6.7km stretch of seabed between Mostyn Breakwater and Point of Ayr shown on the attached Location Plan (Annex 1).

Phase 1 will be 14 No. CPT tests and 14 No. Vibrocores tests taken at the locations shown in yellow and green on the attached plan (Annex 4).

The second phase involves 10 Borehole tests that will be taken at the locations shown in red in the attached plan (Annex 5).

It is planned for both the CPT's and Vibrocores to be taken in late summer of 2020 using the same vessel and contractor. This element of the work is expected to require 5 working days depending on weather conditions and tidal constraints.

CPT Tests - The work entails taking a cone penetration test to a depth of 25m at the 14 locations shown, no material will be extracted from the seabed.

Vibrocore Tests - Vibrocore samples will be taken from the seabed at a depth down to 6m at the 14 locations shown using a core barrel of 86mm diameter. The quantity of material for sampling from each location will be 0.035 cubic metres.

Boreholes will be undertaken at the 10 locations shown in red on the plan at a later date and may be carried out by a different contractor using a different vessel. Each borehole will be to a depth of 25m using a 100mm diameter bore rod which will extract 0.2 cubic metres of material from each borehole.

Please continue on a separate sheet if necessary. Please tick if you have done this

### 6(b). Please detail the location of the proposed construction project.

This should be either Ordnance Survey National Grid Reference (i.e. AB 12345 67890) or Latitude and Longitude in decimal degrees to 4 decimal places (i.e. Lat 52.1234 Long - 4.1234), defining the extent of the project. **Please specify which coordinate system has been used.**

The S.I. work will take place in the Dee estuary, North Wales. Please see attached extract from Admiralty Chart No. 1953 showing the overall site between Waypoints A – I in (Annex 1).

The locations of the Waypoints A – I are shown in (Annex 2).  
A table showing the Lat/Long in WGS 84 of the waypoint locations is in (Annex 3).

The CPT and Vibrocore locations are marked yellow and green respectively in (Annex 4).

The borehole locations are marked red in the attached plan (Annex 5).

Please continue on a separate sheet if necessary. Please tick if you have done this   
**6(c). The following must be provided with the completed application form:**

- (i) a suitably scaled extract of an Ordnance Survey Map or Admiralty Chart with location of project, complete with **North Arrow** and **Scale**
- (ii) construction plans and sectional drawings showing those proposed works below/seaward of MHWS, which should give details of the materials to be used (for beach replenishment the quantity, particle size and source of material to be deposited and deposit location is also required).
- (iii) a descriptive schematic drawing and suitably scaled location plan which show the full extent of the project clearly in relation to the surrounding area and features.

Please list below **all supporting documents** that have been submitted with this application, including suitable documents/maps/drawing titles and reference numbers

The works to which this application refer do not entail construction, no infrastructure will be constructed and no materials will be deposited.

- Annex 1 - Location Plan of overall site.
- Annex 2 - Chart of Waypoints A – I.
- Annex 3 - Schedule of co-ordinates of Waypoints A – I.
- Annex 4 - Locations of Vibrocores and CPT tests.
- Annex 5 - Locations of Boreholes.
- Annex 6 - Vibrocore Method Statement.
- Annex 7 - CPT Method Statement.
- Annex 8 - Borehole Method Statement.
- Annex 9 - Consent from The Dee Conservancy.

Please continue on a separate sheet if necessary. Please tick if you have done this

The applicant should note that these drawings/plans may be copied to others as part of the MLT's consultation procedures. If they are subject to copyright, it is the **responsibility of the applicant to obtain the necessary approvals to reproduce the documents and to submit up to 16 copies with the application.**

## 7. Methods Statement

**7(a). Please provide a detailed method statement for the works**

This must include methods for all works including temporary structures or deposits such as jetties, cofferdams, moorings or landing stages to be constructed seaward of MHWS

As stated above, the works to which this application applies is site investigations only, there will not be any temporary or permanent structural works required. Please see attached Method Statements for Vibrocore, CPT and Boreholes tests in attached Annex 6 - 7 – 8.

Please continue on a separate sheet if necessary. Please tick if you have done this

**7(b). Do you intend to undertake activities that could generate underwater noise?**  
This include piling, use of explosives, geophysical, acoustic deterrent devices and multibeam echosounders. Yes  No

**7(b) (i). If Yes, what type(s) of activities will be undertaken?**

Cone Penetration – Vibrocores – Borehole tests; all testing equipment will be hydraulically driven with minimum noise levels.

**7(b) (ii). If Yes, approximately how many days will the activity be undertaken for?**

Cone Penetration and Vibrocore Tests are expected to take 5 days and the Borehole Tests expected to take 10 days all subject to favourable weather and tidal conditions.

If Yes, you will be required to complete an additional form that will be provided.

**7(c). Please state the measures to be taken to:**

(i) Minimise risk to the marine environment

To minimise risk of oil spillage power will be drawn from the supporting vessel’s generators and any fluids will be held in bunded tanks. After inspection at the contractor’s premises all equipment will be despatched to the site in a clean condition. At the completion of each working day the equipment will be examined and cleaned to avoid the risk of spreading non-native invasive species. Please see RAMS in Annex 6 - 7 – 8.

(ii) Prevent undue interference to others

The activities will be undertaken in the Dee estuary from vessels of between 15m and 25m LOA. Notice to Mariners detailing the works programme with daily updates will be promulgated by the Mostyn Harbourmaster to the Dee Conservancy, Local Authorities, windfarm craft, fishermen and other estuary users.

(iii) Maintain navigational safety, including marking and lighting of works

The applicant is the Statutory Harbour Authority for the investigation site and will issue Notice to Mariners on a regular basis. Vessels will display the appropriate lights and markings for navigational safety as required by the International Regulations for the Prevention of Collisions at Sea (ColRegs). There will be no temporary or permanent works to be marked during non-operational periods.

Please continue on a separate sheet if necessary. Please tick if you have done this

**8. Materials of Project**

**8(a). Description of materials to be deposited seaward of MHWS (Please tick all that apply)**

|        |                          |            |                          |          |                          |                          |                          |
|--------|--------------------------|------------|--------------------------|----------|--------------------------|--------------------------|--------------------------|
| Timber | <input type="checkbox"/> | Iron/Steel | <input type="checkbox"/> | Concrete | <input type="checkbox"/> | Biocides/other chemicals | <input type="checkbox"/> |
| Silt   | <input type="checkbox"/> | Stone/Rock | <input type="checkbox"/> | Gravel   | <input type="checkbox"/> | Plastic/Synthetics       | <input type="checkbox"/> |
| Sand   | <input type="checkbox"/> | Other      | <input type="checkbox"/> |          |                          |                          |                          |

If other, please provide a description of materials.

None

**8(b). Delivery method of materials to site**

If sea delivery, please include details of vessels to be used with a chart of proposed route and transshipment area. If vehicle delivery, please provide the proposed access route.

N/A

Please continue on a separate sheet if necessary. Please tick if you have done this

**8(c). Will the works involve removals seaward of MHWS?** Yes  No

**8(c) (i). Description of materials to be removed seaward of MHWS (Please tick all that apply)**

|        |                                     |            |                          |          |                          |                          |                          |
|--------|-------------------------------------|------------|--------------------------|----------|--------------------------|--------------------------|--------------------------|
| Timber | <input type="checkbox"/>            | Iron/Steel | <input type="checkbox"/> | Concrete | <input type="checkbox"/> | Biocides/other chemicals | <input type="checkbox"/> |
| Silt   | <input checked="" type="checkbox"/> | Stone/Rock | <input type="checkbox"/> | Gravel   | <input type="checkbox"/> | Plastic/Synthetics       | <input type="checkbox"/> |
| Sand   | <input checked="" type="checkbox"/> | Other      | <input type="checkbox"/> |          |                          |                          |                          |

**8(c) (ii). Description of objects/materials to be removed seaward of MHWS**  
Including quantities to be removed.

Samples will be taken from the seabed sediment by boreholes and vibrocores. It is expected that the material will be mainly sand, gravel and clay up to a maximum volume of 2 cubic metres.

**9. Beach Replenishment, Land Reclamation or Salt Marsh Feeding**

For works involving any of the above, please provide the following information

**9(a). Is the material to be deposited like for like to existing material?** Yes  No

**9(a)(i) If No for Beach Replenishment please provide justification why?**

No materials will be deposited

**9(b). Description of material to be deposited**

Please provide the grading specification of materials to be used, if using a range of grain sizes please state the percentage by weight passing. *If unsure, please refer to the Wentworth Scale*

N/A

Please continue on a separate sheet if necessary. Please tick if you have done this

**9(c). Source of the material to be deposited**

Including dredged or land based stating the origin of material

N/A

9(d). Has the material been chemically analysed? Yes  No   
If material has been analysed, we may request this information to determine the application

9(d) (i) If Yes, is the analysis data been included with the application? Yes  No

### 10. Temporary Works

10(a). Will there be any temporary deposits below MHWS? Yes  No   
This includes construction materials, removed objects/material, jetties or cofferdams  
If Yes, please continue with section 10

10(b). Please provide the location of temporary deposits  
Please include a map/chart displaying the location of temporary deposits, if necessary.

|     |
|-----|
| N/A |
|-----|

10(c). Description of temporary deposits

|     |
|-----|
| N/A |
|-----|

Please continue on a separate sheet if necessary. Please tick if you have done this

### 11. Dredge and Disposal of Dredge Material

If you are undertaking Dredge and Disposal activities please also complete the Dredge and Disposal application form and submit together.

11(a). Do you intend to apply for a marine licence to dispose of dredged material to sea as part of the works in this application? Yes  No

### 12. Protected Sites

Licensing Authorities have a duty to ensure that projects will **not have significant adverse environmental impact**, particularly on any designated **European Site of Conservation Importance - Special Areas of Conservation (SAC) and Special Protection Areas (SPA), listed under the Habitats Directive (Council Directive 92/42/EEC on the conservation of natural habitats and of wild fauna and flora)**. In addition, it is Government Policy that Wetlands of International Importance (Ramsar sites) are also considered as European Sites. There is a duty to take reasonable steps to further the conservation and enhancement of nationally designated sites (Sites of Special Scientific Interest (SSSIs)).

**12(a). Have you had pre-application correspondence with NRW, its legacy bodies or Natural England?** Yes  No

**12(a)(i). If Yes, please provide copies of correspondence with application and state which team(s) you have contacted?**

N/A

**12(b). Are any part of the works located *within* or *likely to affect* a designated conservation site? (SAC, SPA, SSSI or Ramsar)** Yes  No

**12(b)(i). If Yes, which designated site(s) may be affected?**

SSSI – SAC – SPA – Ramsar Sites - all within the Dee Estuary

**12(c). Please provide a description of all mitigation measures proposed to avoid any impact on designated conservation sites.**

This application is for site investigations work only, no materials will be deposited. The duration of the Phase 1 works will be a total of 5 days for the CPT and Vibrocore tests subject to favourable weather conditions. Individual CPT tests will take about 10 minutes and Vibrocore tests between 40 minutes and one hour each. To minimise disturbance to conservation features work will be only be carried out when the adjacent sandbanks are covered.

Borehole tests in Phase 2 will take place approximately one per day for 10 days and will last about an hour each subject to weather and tidal conditions. To minimise disturbance to the conservation features operations will only take place when the adjacent sandbanks are covered. All equipment will arrive on site in a clean condition with regular inspections to maintain cleanliness and in particular to minimise the risk of allowing non-native invasive species to spread.

Please continue on a separate sheet if necessary. Please tick if you have done this

**12(d). If the works are not located *within* or *likely to affect* a designated conservation site, please indicated the approximate distance to the nearest designated conservation site.**

Please note that if the proposed works are in or within 2km of a European Site of Conservation Importance you will have to provide suitable mitigation measure to avoid any impact on designated conservation sites.

### 13. Other Consents

Please detail all consents that you have applied for or received for these works

| Type of Consent  | Applied for   | To be applied for | Reference Number        | Date of Issue and Expiry |
|--|---|-------------------|-------------------------|--------------------------|
| <b>Planning Permission under Town and County Planning Act 1990 – From Local Planning Authority (LPA)</b>     | N/A   |                   |                         |                          |
| <b>Name and Address of LPA for location of works</b>   | N/A   |                   |                         |                          |
| <b>Land Owners Consent</b> such as The Crown Estate Consent  | The Dee Conservancy (NRW)   |                   | Please refer to Annex 9 |                          |
| <b>Port Authority or Local Harbour permissions</b>   | The Applicant is the Harbour Authority  |                   |                         |                          |
| <b>Other NRW consents</b> such as Flood Defence or SSSI assent   | Covered by existing SSSI Assent from CCW/NRW  |                   |                         |                          |
| <b>Details of NRW consent</b>  |   |                   |                         |                          |
| <b>Other consents</b> such as Transport and Works Act Order, Section 36 Electricity Act, grant/loan sanction |   |                   |                         |                          |
| <b>Details of other consents</b>   | A consent has been approved by the Dee Conservancy (NRW) who who are owners of part of the seabed involved, the applicant owns the remainder of the area. |                   |                         |                          |

### 14. Statutory Powers

**14(a).Does the applicant have statutory powers to consent any aspect of the project?**  
 E.g. coast protection authority, dredging powers, statutory undertakers    Yes  No

**14(a)(i).If Yes, please give details and state the relevant legislation that gives these powers**

The applicant is a Statutory Undertaker by being a Statutory Harbour Authority and is also the Pilotage Authority for the Dee Estuary Pilotage District

**15. Public Register**

Under The Marine Licensing (Register of Licensing Information)(Wales) Regulations 2011 and the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended) , all information contained within or provided in support of this application will be placed on the Public Register unless NRW approve of the applicant’s reasons for withholding all or part.

**15. Is there any information contained within or provided in support of this application that you consider should NOT be included on the Public Register on the grounds that its disclosure:**

**15(a). Would be contrary to the interest of National Security?** Yes  No

**15(b). Would prejudice to an unreasonable degree you, or some other person’s commercial interest of those of a third party?** Yes  No

If **Yes** to either (a) or (b), please provide full justification as to why all or part of the information you have provided should be withheld

Please continue on a separate sheet if necessary. Please tick if you have done this

## 16. Application Fee

16(a). What are the corresponding fee band for this application? Band 2  Band 3

### 16(b) Band 2 Only

Projects are charged at a fixed fee of £1920. The application will not be processed until the correct fee has been provided.

Please provide the method of payment

| Method                    | Yes (✓) | Reference Number |
|---------------------------|---------|------------------|
| Cheque                    |         |                  |
| BACS (not remittance no.) | Yes     | PRCAPPTHEPO620   |
| World Pay (phone or CC1)  |         |                  |

Please attach **CC1 Form** with application. Can be found on our web pages

### 16(c) Band 3 Application only

Band 3 applications are charged at on hourly rate of £120 and are invoiced in arrears. Please complete the details below which will be required for invoicing.

Customer Name

FAO

Purchase order number

Address for invoice

Telephone Number

Email Address

## 17. Declaration

I declare that to the best of my knowledge and belief that the information given in this application form and supporting documentation is true.

**WARNING: It is an offence under the Marine and Coastal Access Act 2009, under which this application is made, to fail to disclose information or to provide false or misleading information and can invalidate any licence granted.**

Signature  Date 10.06.2020

Name (in capitals) JIM O'TOOLE

Position in Company Managing Director

*Applications cannot be processed unless signed by the **Applicant** (not agent), the applicant must have appropriate level of authority within the company.*
