Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

As a result of the variation the number of birds will increase from 100,000 to 128,000 free range birds. There are currently four houses on site, two of the houses will be upgraded to multi-tier to accommodate the extra bird numbers and two houses will remain the same.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
