Dear Jack

MARINE AND COASTAL ACCESS ACT 2009: PART 4 – MARINE LICENSING

LICENCE FOR REPAIR WORKS TO THE BRIDGE CROSSING THE RIVER RHEIDOL

LICENCE NUMBER: CML2020

I am writing to advise you that the Marine Licensing Team, on behalf of the Welsh Ministers, as Licensing Authority, has considered your application, dated 16 May 2019 for a Marine Licence under Part 4 of the Marine and Coastal Access Act 2009, and hereby grant a Marine Licence for you to undertake the above stated works.

Accordingly, please find attached for your review and retention a copy of Marine Licence **CML2020** and its conditions.

Advisory Note

Marine Licence, **CML2020**, constitutes a statutory consent; therefore the conditions set out herein must be complied with in full and will be binding upon any agent or contractor who undertakes any activity on the project on your behalf.

You are urged to read the conditions of Marine Licence **CML2020** carefully, in particular the need to advise our Marine Enforcement Officers of the commencement of works within **10 days** prior to work starting.

Marine Licence, **CML2020** is solely granted for the work to be undertaken at **River Rheidol**; however, it does not absolve you from applying for further consents or licences as necessary to enable the full completion of your project.

If the works authorised by this Licence are unlikely to be completed by the expiry date, the Licence Holder should apply for a replacement marine licence **at least 4 months** prior to the expiry date of this Licence.

Should you require clarification as to the reasons for the inclusion of any of the conditions attached to the Licence then you must request written notice within 28 days of the receipt of this letter.

The MCA have stated that you must gain the approval of the Harbour Authority prior to the works going ahead, since it is within their jurisdiction. Harbours often operate through local byelaws and are responsible for navigation safety within their area. Since this is different legislation to the Marine & Coastal Access Act 2009, through which the marine licencing system operates, this is an advisory from the MCA as I believe NRW are unable to enforce it.

NRW TE have also recommend that the site and area surrounding the site should be checked for the presence of otter before the start of the project. This is to ensure that there are no new otter laying up or breeding sites that may be impacted. They also recommend daytime working only to avoid disturbance to bats, otters and other species.

Vehicles should also be loaded during the day to reduce night time disturbance. Steps should be undertaken to ensure that otters, mammals and birds do not become trapped within working and storage areas.

NRW TE would also encourage the enhancement of the bridge structure by addition of nest boxes to improve bird nesting opportunities.
