Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Hazardous Waste Regulations 2005

Hazardous waste returns

Hazardous waste consignee returns are completed to inform Natural Resources Wales of the hazardous waste consignments that have been received, removed or disposed at a site.

You may already be aware of the requirements under the Hazardous Waste Regulations 2005 in relation to the reporting the movement of hazardous waste, known as consignee returns for some of the types of waste you may handle. There are also reduced reporting requirements for some of those wastes you are likely to handle, for example, lead acid batteries.

Below are links to some guidance on the reporting requirements for hazardous waste and excel spreadsheet for the consignee returns;

Should you need to discuss any of the above I can be contacted on 0300 065 5191 or by email - kathryn.bradshaw@cyfoethnatriolcymru.gov.uk
