

Application for an environmental permit:

Part B7 – New bespoke groundwater permit to discharge used sheep dip, waste pesticide washings or other waste substances

Fill in this part of the form, together with parts A, B2 and F1, if you are applying for a new groundwater permit to discharge used sheep dip, waste pesticide washings or other waste substances.

Please check that this is the latest version of the form available from our website.

Please read through this form and the guidance notes that came with it.
Contents

1 Discharge area

2 Local environment

Appendix 1 – Specific questions for the discharge of used sheep dip

Appendix 2 – Specific questions for the discharge of waste pesticide washings

Appendix 3 – Specific questions for the discharge of other waste substances

You must fill in a separate copy of this form and the appropriate annex for each substance you plan to discharge.

1 Discharge area

1a Please provide a plan of each discharge area on the site (see the guidance notes on part B7)

Document reference

$\times 3 = A, B + C$

Please see: - attached

1b Please give the Ordnance Survey national grid reference for the central point of the discharge area

National grid reference (12 digit)

$\times 3 = A, B + C$

Please see: - attached

1c Does the discharge area have a field number?

No

☐

Yes

☒

Measurements

$\times 3 = AB + C$

Please see: - attached

1d How big is the discharge area?

Please give the measurements in metres or the area in hectares.

Measurements

$\times 3 = A, B + C$

Please see: - attached

1e Is your discharge area;

a field?

☒

other?

☐

Please give details below

$\times 3$ fields $AB + C$

D = Summary showing streams, springs etc.

2 Local environment

Water features

2a What is the source of your water supply?

Please make sure that your plan in 1a shows where all the sources ticked below (except mains water) are.

- Mains water ☒
- Borehole ☒
- Well ☒
- Spring ☒
- Surface water (for example, a stream or river) ☒

2b Within 500 metres of your discharge area, are there any other water supplies which are not mains water?

Please make sure that your plans in 1a show where any sources ticked below are.

No ☒

Yes ☐ Please tick all that apply

- Borehole ☐
- Well ☐
- Spring ☐
- Surface water (for example, a stream or river) ☐

2c On your plan in 1a, identify all local water features within 500 metres of your discharge area (or areas)

Please see the guidance notes on part B7 for more details.

Environmental permission

2d Are there any permits or agreements currently in force within 500 metres of the discharge area?

No ☐

Yes ☒ Please tick all that apply

Land management agreements – for example, is it an environmentally sensitive area (ESA)? ☐

Please give details below

THERE IS A FULL LICENCE HELD TO ABSTRACT WATER
PLEASE SEE "E" A HYDRO.

I would like details of any land management agreements to be kept confidential ☐

Environmental permits ☐

Nature conservation designations – for example, is it a site of special scientific interest (SSSI) or special area of conservation (SAC)? ☐

Soil

2e How deep is the topsoil?

Shallow (0 to 20 centimetres) ☐

Moderate (21 to 30 centimetres) ☒

Deep (more than 30 centimetres) ☐

2f What is the texture of the soil? Tick as many boxes as you think are appropriate.

Sandy ☐

Loamy ☐

Chalky ☐

Silty ☐

Clay ☐

Stony ☒

Fine grained ☐

Medium grained ☐

Coarse grained ☒

2g Does the soil have a high organic matter content?

No ☒

Yes ☐

Drainage

2h How well does the soil drain?

Freely – rainfall drains almost immediately ☒

Moderately well – rainfall drains more slowly but does not 'pond' ☐

Poorly – rain 'ponds' on the surface and the field often becomes waterlogged ☐

Does not apply – for example, the disposal is on a yard area ☐

2i Does the field or yard have under drains or land drains?

No ☒ Go to section 2m

Yes ☐ Please mark on the plan in 1a where the drains and discharge points are based.

2j When were the drains installed?

Please estimate the number of years ago

2k What kind of drains were installed?

Tick all relevant boxes

Pipe drains ☐

Porous fill ☐

Moledrains ☐

Other ☐ Give details below

Depth below ground

metres

metres

metres

metres

2l Have you any information that could clearly show how deep the groundwater is below the discharge site?

Vegetation

2m Describe the vegetation at the time you will be discharging the hazardous substances or other non-hazardous pollutants

For example, bare soils, rough grazing, meadow, crop (please say which types).

A - Rough Grazing (Summary = D)
B - Mowing
C - Mowing

2n Describe any changes in vegetation cover during the year

For example, different cropping systems, rotation and so on.

A - None.
B + C - Mowed for fodder early June then grazed thereafter.

Appendix 1 – Specific questions for the discharge of used sheep dip

1 Please tell us the type of sheep dip you are planning to discharge

Organophosphate (OP) ☒

Synthetic pyrethroid (SP) ☐

Bloom dip ☐

2 Do you plan to collect used dip from other premises to discharge on your site? You will be required to keep records of each site.

No ☐

Yes ☒

Treating and diluting used sheep dip

3 Will you treat the used sheep dip before you discharge it?

No ☒

Yes ☐ Please see the guidance notes on Part B7 and give details below.

4 Will you dilute the used sheep dip before you discharge it? Normal dilution for spreading sheep dip is 1 part used sheep dip to 3 parts slurry or water.

No ☐ It is discharged at working strength

Yes ☒ I add slurry or water to the working strength used dip to dilute it before it is discharged

5 Please give the maximum amount of used sheep dip you discharge onto land in one day

Type and amount		Cubic metres
A	Amount of used working strength dip	1 M3
B	Amount of slurry or water added to dilute the dip for disposal purposes	4-5 M3
	Total for disposal (A + B)	5-5 M3

How often the used sheep dip is discharged

6 How often will you discharge used sheep dip?

3/4 days each year *

7 When will you discharge used sheep dip?

January ☐ May ☐ September ☒

February ☐ June ☒ October ☐

March ☐ July ☒ November ☐

April ☐ August ☒ December ☐

How you discharge the used sheep dip

8 How will you discharge the used dip?

*Definitely for our own use - 2500 ewes initially - Starting up contract dipping - it successful could be more depend- ing on success.

Vacuum tanker

Other

Please give details below

9 Give the application rate of your discharging equipment if you know it

For example, your tanker application rate in cubic metres per hectare.

Application rate

Approx 20M3 \Rightarrow 1 hectare - Diluted.

10 Who is responsible for discharging the used dip?

You or your farm staff

A contractor or another person

dip with water at the
ratio of 5-water + 1-used
sheep dip.

Please give details below
