Dafen
Llanelli
SA14 8LQ

Our ref: GP3830BG/V008

Date: 2 November 2018

Dear Mr Knott,

We need more information/fee regarding your application

Application reference: GP3830BG/V008

Operator: FCC Waste Services (UK) Limited

Facility: Chirk Landfill, Pen y Bont Works, Chirk

Further to the Application documents received on 1 October 2018, unfortunately I need to ask you for some more details before I can decide whether it's duly made or not.

Please would you provide us with more information as detailed below:

- Please provide details of the correct OPRA score for the site along with any additional variation application fees as appropriate. Following our telephone conversation of yesterday, you will need to review the aspects of the OPRA score which relate to the emissions to air from the gas engines, the waste emissions off site in the form of leachate which is tankered and the score for the proximity of the River Dee SAC/SSSI, though you may find that the final point does not require correcting.

Please reply within 10 working days from the date of this letter. If we don't hear from you we may return your application.

If you email or write to us please quote the application reference on any correspondence and send it to the relevant address.

When we receive the requested information/fee, we will continue to check the details in your application. If there's enough for us to begin the process of deciding whether or not we can grant your application we say the application is 'duly made' and we'll let you know this by letter.

If you have any questions please contact me.

Yours sincerely

Paul Williams
Senior Permitting Officer – Regulated Industry
