

APPLICATION FOR A MARINE LICENCE TO DREDGE AND/OR DISPOSE OF DREDGE MATERIAL

Please read the notes carefully before completing the form.

- The Marine Licensing Team (MLT) administers applications under Part 4 of the Marine and Coastal Access Act 2009 on behalf of the licensing authority, the Welsh Ministers.
- The completed application form must be accompanied by a location plan and, where appropriate, descriptive drawing(s) and any supporting environmental assessments. One completed hard copy of the application and supporting documents will always be required. Additional copies are required for consultation purposes.
 - For application and supporting documents less than 10MB we can accept an additional copy via email.
 - For applications larger than 10MB **16** additional copies in CD/DVD format will be required
 - When applications and supporting documents are hard copy only **16** copies will be required.
- Please submit applications to the **Permit Receipt Centre** via the details at the top of this form
- Please submit marine licence applications including this form and all supporting documents **at least 4 months before the licence is required.**

Some projects may raise matters that require a significantly longer time for consideration.

These are most likely to be:

- Projects that fall **within** The Marine Works (Environmental Impact Assessment) Regulations 2007 – as amended requiring an Environmental Statement
- Large scale projects with substantial volumes of material being deposited or excavated
- Works requiring an Appropriate Assessment to be conducted under The Conservation of Habitats and Species Regulations 2017
- Please note that an application will not be considered to be complete until sediment sampling and analysis has been undertaken. Please allow an additional **2 months** for sampling plan details and all relevant information to be submitted should sampling analysis be required.
- Information should be provided about the anticipated **duration of the entire project** in respect of works below/seaward of Mean High Water Spring (MHWS). Where appropriate, planned phasing of the work for which consent is sought must be detailed. For projects lasting more than one calendar year, planned phasing details must be given for each 12 month period.

A licence fee is payable in respect of an application. Details of fees can be found on our web pages.

Please note applications will not be processed without the correct relevant fee or invoicing details.

- Payments can be made via Cheque, BACS or credit/debit card.

- Cheques should be crossed and made payable to **Natural Resources Wales**.
- For BACS payments ensure you provide the reference number (not remittance number)
- For credit/debit card payments please complete the CC1 form and submit with the application. The CC1 form can be found on our web pages

Further information on payment methods can be found on our web pages

- **All dredge and disposal activities need to comply with the Water Framework Directive (WFD). The framework and guidance can be found on the Natural Resources Wales website, <http://naturalresources.wales>. The results of your WFD assessment must be attached to your marine licence application.**
- Please answer all questions. If any information is not available at the time of application please indicate in the relevant section, giving reasoning in a covering letter. Outstanding details must be submitted as soon as possible. Any delay in forwarding details is likely to result in delays in determining your application.

Your application may not be considered complete and therefore not processed until key information has been submitted. Your application may be returned if you fail to submit outstanding information within given timescales.

- Please note any licence may have conditions that must be discharged before works can commence. This will take additional time.
- If you have any queries with regards to completing this application please contact the MLT: marinelicensing@naturalresourceswales.gov.uk

How your application will be processed by the MLT:

- Submit all application to the **Permit Receipt Centre** via the details at the top of this form.
- Checked and acknowledged by the MLT within 21 days of receipt of application and payment
- If the application is complete and no further information is needed at this time, your application will be placed in a work queue to be assigned a permitting officer
- If the application is not complete, further information will be request and need to be provided before the application can be considered as complete
- Our **4 months** service level for determining non-EIA applications will begin from the date the **completed** application, including sampling results, is received (*Please note some projects may take significantly longer than 4 months to determine due to their nature*)
- EIA projects may take significantly longer due to their scale and complexity. Therefore we encourage early engagement with the MLT
- Your application and supporting documents will be sent to for an initial consultation period of 28 days (*42 days for EIA projects*)
- For the majority of projects, a public notice must be advertised. Public consultation will be 28 days (*49 days for EIA projects*). For EIA projects a second public notice will be required. The MLT will advise on how this should be done.

It is the responsibility of the applicant to obtain any other consents or authorisations that may be required.

Application Form Structure

1. Project description and cost
2. Applicant details
3. Dredging contractor (Producer) details
4. Holder details
5. Agent details
6. Environmental Impact Assessment (EIA)
7. Current consents
8. Licensable Period
9. Duration of dredging operation
10. Dredging and/or disposal vessel(s) details
11. Method statement for dredging
12. Areas to be dredged
13. Details of materials to be dredged
14. Details of material quality
15. Construction/Land reclamation projects
16. Alternative Means of Disposal
17. Disposal at Sea
18. Conservation bodies
19. Statutory powers
20. Public register
21. Application fee
22. Declaration

Check List

Please ensure that you have included all the necessary information before you submit your application. **If any of the below are not completed in the application form, the application is likely to be considered incomplete and may be returned to you**

Item	Yes (✓)
The applicant is a legal entity?	
The declaration is signed by the applicant?	
Is the application fee correct?	
Are the grid references/coordinates correct?	
Do the coordinates match map locations?	
Have all the relevant supporting documents been submitted?	
Has a Water Framework Directive assessment been submitted?	
Has a clear methodology been provided in the application form?	
Has Protected sites information been included?	
Are all the continuation sheets for application questions appended with correct	

Should you have any queries regarding your application please contact the MLT via marinelicensing@naturalresourceswales.gov.uk

1. Project Description and Cost

1 (a). Project Name

Swansea Yacht and Sub Aqua Club (SYSAC) Marina - Maintenance Dredging

1(b). Please provide a brief description of the proposed project, including location

This small dredging projects will use Water Injection Dredging (WID) methods to restore the required navigational depths within Swansea SYSAC Marina on the River Tawe in the winter months of 2020/21 and 2022/23. Project location is located immediately upstream of the Tawe Barrage and extends as far as the sail bridge walkway - please refer to the Water Framework Directive Assessment and related figures.

1(c). Please provide an estimated gross cost of the project (Inc. materials and labour) for works that fall below/seaward of Mean High Water Springs (MHWS)

Approximately £125,000 (each dredging campaign)

1 (d). Please specify which activities you are applying for (tick all that apply)

Dredging ☒ Disposal ☐

1(e). Please provide the annual tonnage being applied for in this marine licence application

22,500 t (every other year)

2. Applicant Details

(this must be a legal entity such as an individual, registered company/ charity or a public body)

Title Name Surname

Company or Trading Name

Registered Address (inc. postcode)

Name of Contact (if different)

Position in Company

Telephone no. (inc. area code)

Email address

Company Registration Number

3. Dredging Contractor (Producer) Details

(The **Producer** is anyone whose activities produce the material intended to be deposited at sea)

If the **Producer** is the applicant in 2, please tick and move on to section 4 ☐

Title Name Surname

Company or Trading Name

Address (inc. postcode)

Name of Contact (if different)

Position in Company

Telephone no. (inc. area code)

Email address

Company Registration Number

If there is more than one **producer**, please continue on a separate sheet and tick box ☐

4. Holder Details

(The **Holder** is anyone who is in possession of the dredged material prior to its deposit at sea)

If the **Holder** is the applicant in 2, please tick and move on to section 5 ☐

If the **Holder** is the producer in 3, please tick and move on to section 5 ☐

Title Name Surname

Company or Trading Name	
Address (inc. postcode)	
Name of Contact (if different)	
Position in Company	
Telephone no. (inc. area code)	
Email address	
Company Registration Number	

If there is more than one **holder**, please continue on a separate sheet and tick box ☐

5. Agent Details

*(An **Agent** is anyone engaged to act under contract or other agreement on behalf of any party listed in **2,3 or 4** having responsibility for the control, management or deposit of the material anywhere below Mean High Water Springs). This is who we will correspond with unless otherwise informed. If there is no agent, we will contact the applicant.*

Function (eg. Sea Disposal Contractor)	Dredging Consultant to the Applicant		
Title	Mr	Name	Martin
		Surname	Maloney
Company or Trading Name	Anthony D Bates Partnership LLP		
Address (inc. postcode)	Laburnham Farm
Upper Weare
Axbridge
Somerset BS26 2LE		
Name of Contact (if different)			
Position in Company	Dredging Consultant		

Telephone no.
(inc. area code)

01934 732380 / 07834029932

Email address

martin@anthonybates.co.uk

Company Registration
Number

OC344572

If there is more than one **agent**, please continue on a separate sheet and tick box ☐

Does the Applicant wish to be included in all correspondence? Yes ☒ No ☐

6.Environmental Impact Assessment

6(a). Have you considered the works to be under the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended) on the assessment of the effects of certain public and private projects on the environment?

Yes ☐ No ☒

6(b). If **Yes**, which Annex do you consider they fall within? Annex I ☐ Annex II ☐

6(c). Have you applied for a screening or scoping opinion from the **MLT** under the **Marine Works (Environmental Impact Assessment) Regulations 2007** (as amended)?

Yes ☐ No ☒

If **Yes**, what is the reference?

6(d). Has an Environmental Impact Assessment been undertaken to support this application?

Yes ☐ No ☒

If **Yes**, is a copy of the assessment included in this application? Yes ☐ No ☐

6(e). Please provide an explanation if assessment has been done and a copy is **not available**.

7. Current Consents (if applicable)

7(a). Existing Licence(s)/Consent(s)
Reference Number

N/A

7(b). Expiry date

7(c). Quantity (tonnes) deposited under
Current licence at (date)

7(d). If **No** current licence/consent exists, please give reference number(s) for any historic licences(s)/consent(s) held for this operation or state if this is not applicable.

DML1639v1, DML1639, 12/24/ML/1,

8. Licensable period

Determination of your Marine Licence application will be based on the works taking place during these dates. Please ensure you have included an adequate contingency period. If works are not completed by the Requested Licence Expiry Date you may be required to submit a new application. *Including a contingency period within your original application does not impact on Licence Fee*

Start Date

Approx. 01 January 2021

Requested Licence Expiry Date

31 March 2023

*Please ensure you submit your application for a Marine Licence **at least 4 months** prior to the intended start date. Some projects will take significantly longer than this to determine.*

9. Duration of Dredging and/or Disposal Operation

If your operation will not take place year round at the locations outlined in section 12, please state the expected periods when dredging and/or disposals will take place.

9(a). Proposed periods of
dredging and/or disposal operations

Jan 2021 to March 2021; and
Dec 2022 to March 2023

9(b). Expected completion date of
dredging and/or disposal operations

March 2021; and
March 2023

10. Dredging and/or Disposal Vessel(s) Details

	Operator	Name of Vessel	Vessel Registration Number	Country of Registration	Method of Deposit
(a)	To be notified				
(b)					
(c)					

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

11. Method statement for dredging and/or disposal operations (if applicable)

Please provide a comprehensive method statement for each dredging campaign, including type of dredging (if using different types at different locations please state), duration, and depth of proposed dredge, dredge areas and deposit areas

Please refer to Supporting Documentation, Section 4.5.

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

12. Areas to be Dredged

	Name of Area to be Dredged (an annotated chart must be attached with each proposed dredge area-boundary latitude and longitude should be given in next column)	Coordinates (degrees and minutes to 2 decimal places)		Nature of Dredge (such as river, sea, harbour, estuary)	Date Area last Dredged (If known) (month and year)
(a)	Swansea SYSAC Marina	51 37.02 N 51 36.99 N 51 36.98 N 51 36.97 N 51 37.00 N 51 37.01 N 51 37.02 N 51 37.01 N 51 37.00 N 51 37.01 N 51 37.02 N 51 37.03 N 51 37.07 N 51 37.08 N 51 37.09 N 51 37.11 N 51 37.19 N 51 37.14 N 51 37.15 N 51 37.17 N 51 37.12 N 51 37.11 N 51 37.10 N 51 37.10 N	03 55.75 W 03 55.82 W 03 55.84 W 03 55.86 W 03 55.93 W 03 55.91 W 03 55.92 W 03 55.93 W 03 56.00 W 03 56.00 W 03 55.94 W 03 55.93 W 03 56.00 W 03 56.03 W 03 56.02 W 03 56.05 W 03 56.04 W 03 55.04 W 03 55.98 W 03 55.92 W 03 55.88 W 03 55.88 W 03 55.87 W 03 55.85 W	River Tawe	February 2019
(b)					

(c)				
(d)				
(e)				

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

13. Details of Material to be Dredged and/or Disposed

For each area listed in **10** [a to e] including any listed separately, please give the following information:

	Type of Material (Maintenance or Capital Dredge)	Specific Gravity (estimate)	Physical Composition of Materials (Approximate proportions by volume of clay/silt/sand/gravel/etc...)	Depth of Material being Removed (Approximate maximum depth in metres)	Quantity to be Dredged each year (Indicate in-situ cubic metres or metric tonnes)
(a)	Maintenance	1.3 t/m³ (<i>insitu</i> bulk density)	100% silt / clay	Average depth, approximately 0.50m	17,000 m³ to be dredged every two years
(b)					
(c)					
(d)					

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

Dredged and/or Disposal Material: additional information

For each area listed in **10** [a to e] including any listed separately, please give the following information:

	Type of Contamination (State if material to be deposited at sea is likely to be contaminated by any known waste discharge or man-made rubbish (e.g. scrap metal/concrete))	Type of Dredger Proposed to be Used	Any beneficial uses (inc. mitigation) for the material to be dredged (any alternatives to disposal at sea should be indicated, details in 11)
(a)	No disposal being made	Water Injection Dredge	Sediment is not excavated
(b)			
(c)			
(d)			
(e)			

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

14. Details of Material Quality

Applicants are not normally required to specify chemical quality of dredged materials for deposit, unless depositing at sea. There will usually be a requirement to submit samples for the purpose of assessing the effects of the materials on the marine environment to enable the UK to fulfil its obligations under International Conventions

14(a). Has the dredged material been chemically analysed in the past 3 years? Yes ☒ No ☐

14(b). Can the sample be made available now if required? Yes ☐ No ☒

If **No**, please state when they will be available

Samples have been tested already and no material remains that will be within date limits

15. Construction/Land Reclamation Projects

15(a). Is the dredging operation related to a construction or land reclamation project?

Yes ☐ No ☒

If **Yes**, have you applied for a construction or reclamation licence

under **Part 4** of the **Marine and Coastal Access Act 2009**? Yes ☐ No ☐

If you have **Not** yet applied for a construction/reclamation licence, please provide an explanation

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

16. Alternative Means of Disposal

The Licensing Authority requires applicant to have regard to the practical availability of alternative means of disposal or treatment (other than deposit at sea) when determining whether to issue a licence, in order to fulfil its responsibility.

Please state the results of your investigations to identify alternative means of disposal, including beneficial uses, or treatment of the materials, along with cost of all options, including deposit at sea.

The material being dredged is not being removed from the estuarine system and no disposal takes place. As detailed in the dredging methodology referenced above the sediment is re-fluidised and uses the local currents to continue its natural path should the Tawe barrage, now in place, not been constructed. This practice is widely regarded as a beneficial use of the material, known as sediment cell maintenance, as it retains the naturally occurring sediments in the environment rather than removing it to a foreign environment, potentially impacting on the dredging and disposal areas. Having previously used this method of dredging on five previous occasions no detrimental impacts have been observed or reported.

The recovery of the material from the aquatic environment would also have very substantial cost implications. Substantially larger dredging plant would be required to excavate the sediment and ancillary plant would also be required for transportation to a remote disposal site, the nearest of which is 10km away.

Please continue on a separate sheet if necessary. Please tick if you have done this ☒

17. Disposal at Sea

17 (a). Do you intend to dispose of any dredged material at sea Yes ☐ No ☒

17 (b). Please provide the disposal site code

17 (c). Please provide the coordinates of the intended disposal site

18. Conservation Bodies

18 (a). Licensing Authorities have a duty to ensure that projects will **not have significant adverse environmental impact**, particularly on any designated **European Site of Conservation Importance - Special Areas of Conservation (SAC) and Special Protection Areas (SPA), listed under the Habitats Directive (Council Directive 92/42/EEC on the conservation of natural habitats and of wild fauna and flora)**. In addition, it is Government Policy that Wetlands of International Importance (Ramsar sites) are also considered as European Sites. There is a duty to take reasonable steps to further the conservation and enhancement of nationally designated sites (Sites of Special Scientific Interest (SSSIs)).

Please provide copies of correspondence with Natural Resources Wales or its legacy bodies (**in this case the Countryside Council for Wales**) or Natural England. Please indicate below if **no consultation had yet taken place**.

No consultation has taken place to date

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

18 (b). **Are any parts of the proposed works located *within* or *likely to affect* a designated conservation site? (SAC, SPA, SSSI or Ramsar Sites)** Yes ☐ No ☒

18(c). If **Yes**, which designated site(s) will the works fall within:

18(d). **Please provide a description of all measures proposed to avoid any impacts on designated conservation sites**

No local applicable sites within 2km of dredge site

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

18(e). If **No**, please indicate the approximate distance to the nearest conservation site of the proposed works.

4 km

19. Statutory Powers

Do you or (if appropriate) your client, have statutory powers to consent any aspect of the project?

Yes ☐

No ☒

If **Yes**, please give details:

20. Public Register

Under The Marine Licensing (Register of Licensing Information)(Wales) Regulations 2011 and the Environmental Impact Assessment Directive (Directive 85/337/EEC - as amended) , all information contained within or provided in support of this application will be placed on the Public Register unless NRW approve of the applicant's reasons for withholding all or part.

Is there any information contained within or provided in support of this application that you consider **should not be included** on the Public Register on the grounds that its disclosure:

19(a). Would be contrary to the interest of National Security? Yes ☐ No ☒

19(b). Would prejudice to an unreasonable degree you, or some other person's commercial interest of those of a third party? Yes ☐ No ☒

If **Yes**, to either (a) or (b), please full justification as to why all or part of the information you have provided should be withheld.

Please continue on a separate sheet if necessary. Please tick if you have done this ☐

21. Application Fee

21(a). What are the corresponding fee band for this application? Band 2 ☒ Band 3 ☐

21(b) Band 2 Only

Projects are charged at a fixed fee of £1920. The application will not be processed until the correct fee has been provided.

Please provide the method of payment

Method	Yes (✓)	Reference Number
Cheque		
BACS (not remittance no.)	Yes	PRCAPP SWANSEA COUNCIL 14092020
World Pay (phone or CC1)		

Please attach **CC1 Form** with application. Can be found on our web pages

21(c) Band 3 Application only

Band 3 applications are charged at on hourly rate of £120 and are invoiced in arrears. Please complete the details below which will be required for invoicing.

Customer Name

FAO

Purchase order number
