Dear Rod Lewis

MARINE AND COASTAL ACCESS ACT 2009: PART 4 – MARINE LICENSING

LICENCE FOR DREDGE DISPOSAL RENEWAL BARRY

LICENCE NUMBER: DML1955v1

Following your email dated 3 of September an NRW led variation was required in order to correct error in the co-ordinates detailed within the licence which was approved on the 02 June 2020. During the review we have also taken the opportunity to correct some other minor error in the licence. NRW have therefore varied the licence to rectify this.

Accordingly, please find attached for your review and retention a copy of Marine Licence **DML1955v1** and its conditions. Please note that Marine Licence **DML1955v1** supersedes Marine Licence **DML1955** in its entirety.

Amendments to co-ordinates errors in Table 3 Barry Basin as well as Table 5 Cardiff disposal ground.

Further text has been included in Table 1 in order to clarify that Cardiff Grounds should be used as a bad weather site only as proposed within the marine licence.

Condition 3.12, condition 3.18 and 3.26 relating to refuelling, coating/treatments have been removed as they are not relevant to the works being carried out.

Alterations to dates in the monitoring condition 3.20.3.

Advisory Note

Marine Licence, **DML1955v1**, constitutes a statutory consent; therefore, the conditions set out herein must be complied with in full and will be binding upon any agent or contractor who undertakes any activity on the project on your behalf.

You are urged to read the conditions of Marine Licence **DML1955v1** carefully, in particular the need to advise our Marine Enforcement Officers of the commencement of works within **10 days** prior to work starting.

Marine Licence, **DML1955v1** is solely granted for the work to be undertaken at Merkur Buoy (LU115) and only as a bad weather contingency should Cardiff Grounds (LU110) be used (please note that the bad weather contingency tonnage per year is inclusive of maximum deposit tonnage); however, it does not absolve you from applying for further consents or licences as necessary to enable the full completion of your project.

If the works authorised by this Licence are unlikely to be completed by the expiry date, the Licence Holder should apply for a replacement marine licence **at least 4 months** prior to the expiry date of this Licence.

Should you require clarification as to the reasons for the inclusion of any of the conditions attached to the Licence then you must request written notice within 28 days of the receipt of this letter.
