### **Introductory note**

#### **This introductory note does not form a part of the notice**

The following notice gives notice of the variation of an environmental permit.

This minor technical variation is to add an additional waste code to the list of codes that can be accepted on site. The code to be added is 20 01 99 other fractions not otherwise specified, further described as Absorbent Hygiene Products.

Table 1.1. has been updated to reflect the additional code and limit to be accepted.

Improvement condition 1.12 has been added as an NRW initiated variation relating to amendment of 4.3.2 and 4.3.3, provision of a Fire Management and Prevention Plan required to comply with current Regulations and best practice.

No other changes are to be made to the permit

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
