

Compliance Assessment Report CAR_NRW0036955

Permit being assessed: NP3494FP.

For: Llandygai Transfer Station, held by Watkin Jones & Son Ltd

At: Bangor, Gwynedd, LL57 4YH.

Type of assessment carried out: Site Inspection, Reason: Routine.

On 15/09/2020 between 15:15 and 15:30.

Parts of permit assessed: See Below

NRW Lead Officer: Philip Harper, accompanied by Caitriona Harvey.

Report sent to: Aled Owen, Environmental Manager on 25/09/2020.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
B4 - Infrastructure - Containment of stored materials	Assessed (A)	
E2 - Emissions - Land and groundwater	Assessed (A)	
F1 - Amenity - Odour	Assessed (A)	
F2 - Amenity - Noise	Assessed (A)	
F3 - Amenity - Dust/fibres/particulates and litter	Assessed (A)	
F4 - Amenity - Pests/birds and scavengers	Assessed (A)	
F5 - Amenity - Deposits on road	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

NRW officer Phil Harper and Ceris Evans visited Llandegai Transfer Station, Plot 29 Llandegai Industrial Estate, Bangor, Gwynedd, LL57 4YH on the 15th September 2020 at 15:15. The whole site can be seen from the gate, therefore due to the COVID-19 pandemic the visit was unaccompanied. Weather conditions were dry and sunny. There was no activity on the site at the time of the inspection.

Waste was stored securely on the site.

F1 Odour

No odours on site or outside of the site boundary.

F2 Noise

Site was operational during the inspection, no excessive noise.

F3 Dust/fibres/particulates and litter

No dust on site, no litter outside of the site boundary.

F4 Pests/birds and scavengers

No vermin on site.

F5 Deposits on road

No deposits on site.

Desktop Review

A review of the 2019/20 waste returns for permit number EPR-NP3494FP has been completed.

G4 Reporting and Notification to Natural Resources Wales

All waste returns have been submitted.

C3 Materials Acceptance

No issues with accepted waste quantities and waste types have been observed.

Technically Competent Manager

A review of TCM (Technically Competent Manager) provision for permit number EPR-NP3494FP is in progress.

WAMITAB

Please provide evidence that the TCM posses the appropriate WAMITAB qualification to oversee the site activities.

If the WAMITAB qualification for the site TCM has expired after the 16th of March 2020 please read the advice below and act appropriately.

Continued Technical Competence

In view of Pearson VUE test centres now being closed, Continuing Competence tests are not currently available and until the current Government's advice changes, we will not regard the failure to complete a continuing competence assessment that became due after 16 March 2020 as being a failure to comply with the [CIWM/WAMITAB Operator Competence scheme](#).

There will be a requirement to demonstrate you have registered with WAMITAB to undertake this test. If this applies to you or your TCM, please contact both NRW and WAMITAB as soon as possible to let us know. WAMITAB are keeping a log of those who have contacted them. NRW will be checking this list.

Where an application for a permit is made and continued competence was due after 16 March, we won't take that as a failure to prove technical competence and we will determine the application as per normal.

There will be a requirement to demonstrate you have registered with WAMITAB to undertake this test and already have the relevant primary qualifications that align with the type of facility you are making an application for.

It is expected that your test is re-booked as soon as the centres re-open.

Where a permit already exists and obtaining continued competence is not possible. The details will be noted on a compliance assessment report, scored but that score held in suspension.

There is the risk to the operator who fails to achieve continued competence following lifting of restrictions on gaining qualification that that operator will be in breach of the permit or this may delay permit issue. In this instance the operator will be expected to provide replacement TCM cover to remain compliant.

Action: Please send evidence to the following email address.

Philip.harper@cyfoethnaturiolcymru.gov.uk by Friday 2nd October 2020

Kind Regards

Phil Harper

Industry and Waste Regulation Officer NW

03000 65 3717

philip.harper@cyfoethnaturiolcymru.gov.uk

*Please note any reference within the CAR/ permit to the Environment Agency means Natural Resources Wales.
In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) order 2012.*

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.

Full list of Industry and Waste action criteria (used in section 1 and 2):

A: Permitted activities

- A1 Specified by permit

B: Infrastructure

- B1 Infrastructure – Engineering for prevention and control of emissions
- B2 Infrastructure – Closure and decommissioning
- B3 Infrastructure – Site drainage engineering (clean and foul)
- B4 Infrastructure – Containment of stored materials
- B5 Infrastructure – Plant and equipment

C: General management

- C1 General management – Staff competency/training
- C2 General management – Management system and operating procedures
- C3 General management – Materials acceptance
- C4 General management – Storage, handling, labelling and segregation

D: Incident management

- D1 Incident management – Site security
- D2 Incident management – Accidents, emergency and incident planning

E: Emissions

- E1 Emissions – Air
- E2 Emissions – Land and groundwater
- E3 Emissions – Surface water
- E4 Emissions – Sewer
- E5 Emissions – Waste

F: Amenity

- F1 Amenity – Odour
- F2 Amenity – Noise
- F3 Amenity – Dust/fibres/particulates and litter
- F4 Amenity – Pests/birds and scavengers
- F5 Amenity – Deposits on road

G: Monitoring and records, maintenance and reporting

- G1 Monitoring and records, maintenance and reporting – Monitoring of emissions and environment
- G2 Monitoring and records, maintenance and reporting – Records of activity, site diary/journal/events
- G3 Monitoring and records, maintenance and reporting – Maintenance records
- G4 Monitoring and records, maintenance and reporting – Reporting and notification to Natural Resources Wales

H: Resources efficiency

- H1 Resource efficiency – Efficient use of raw materials
- H2 Resource efficiency – Energy efficiency

Enforcement response

Any permit condition non-compliance is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within 20 working days to let you know if we agree to your request.

What do I do if I disagree with the report or have a complaint?

If you disagree with this compliance assessment report, you should contact the lead officer without delay to discuss your concerns.

If you are unable to resolve the issue with the lead officer or their line manager you should contact our Customer Contact team on 0300 065 3000 (Monday to Friday 08:00 – 18:00), or email enquiries@naturalresourceswales.gov.uk for details of how to raise your dispute further through our Complaints and Commendations procedure.

If you are dissatisfied with our response, you can contact the Public Services Ombudsman for Wales by phone on 0300 7900203 or by email at ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
