3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On Friday the 16th of October 2020 waste regulation officers Steve White and Boguslawa Pierzchala attended the site. Police officer Eryl Lloyd was also present during the inspection.

This was an announced inspection due to the current Covid 19 restrictions to ensure safety of all people involved.

The officers were met by Cari and Chris Hayward who accompanied officers throughout the inspection.

Overall the site is very neat and is being run well. There have been some improvements since the last inspection took place with a new bund constructed around top of the yard to assist with site security.

Bund at the rear of the yard

The indoor storage areas were well organised with various metals segregated into different boxes.

Indoors storage area

Batteries were observed stored indoors and in appropriate containers

Indoor storage for batteries

Depollution area was checked and appeared in good order, with designated, separate containers for different types of liquid waste.

Depollution area and waste containers

A number of engines and car parts containing oil were observed in the yard these will require moving to weatherproof area or storage.

Schedule 5 ELV Regs 2003: “provided with storage facilities that are appropriate for dismantled spare parts, including impermeable storage facilities for spare parts that are contaminated with oil”.

engines stored outside

Metal stored in the yard

Waste returns for the site are submitted annually, these were checked for the site and there is no waste return for 2019.

Condition 4.2.2 of your permit requires you to submit within one month of the end of each year, a summary of waste quantities and types accepted on to and removed from site during the previous year.

Action Required: The missing annual return for 2019 must be submitted to waste.returns@cyfoethnaturiolcymru.gov.uk no later than 30th of November 2020.

Thank you for your time during the inspection, please find my contact details below.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
