Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

The operator initiated variation includes:

- increase in annual tonnage from 5,000 tonnes to 24,999 tonnes
- increase in the amount of waste that can be stored on site at any one time from 260 tonnes to 1,000 tonnes
- increase the maximum time that waste can be stored on site
- additional treatment activities – screening, cutting, compacting and baling
- removal of the discharge to soakaway to a 30,000 litre sealed underground tank

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
