Variation number

PAN-003843/V002

Permit number

PAN-003843

Dafen Reserve Power Limited

Permit number PAN-003843

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This permit variation is for the continued permitted operation of five 4.619 MWth spark ignition reciprocating engines (one 23.095MWth Specified Generator) at Dafen Reserve Power Limited, Llanelli. Given the increasing requirement for flexible forms of electricity generation to complement increased penetration of renewable energy the existing operating hours limit is insufficient. This variation increases the operational hours from 1500 hours per year to 5500 hours per year. Due to changes in habitats screening distances for natural gas fuelled Tranche B Specified Generators has changed from a simple bespoke plant to a complex bespoke plant.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Application PAN-003843 received	Duly made 15/11/18	Application for new Specified Generator Permit
Permit determined	13/06/19	Permit issued to Dafen Reserve Power Limited
