Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

An exceptional circumstances report for Phosphorus exceedances was received on 28/09/20.

Condition 3.1.1 of the permit states that *'The limits given in schedule 3 table S3.1 shall not be exceeded.'*

Table S3.1 stipulates that the limit for Phosphorus is **2mg/l** (annual average). The annual average to date for Phosphorus is **2.64mg/l**, though with Lower Confidence Interval applied this is reduced to **1.72mg/l** and is therefore compliant with the permit.

Phosphorus results covering the period from 29/11/20 to 17/11/20;

Date of sample	P result (mg/l)
29/11/20	1.95
21/01/20	2.55
06/02/20	4.12
21/07/20	4.53
28/07/20	3.97
10/09/20	1.65
06/10/20	0.97
17/11/20	1.41

As discussed during a site visit with Rob Jenkins on 13/11/2020, you are not failing on Phosphorus and are therefore currently compliant with your permit. Any future failures will be assessed for compliance if and when they occur. An email was sent to DCWW on 18/11/2020 to confirm this.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.
