## Full transfer

We have decided to grant the transfer for Cardiff Energy Recovery Facility from Viridor Waste Management Limited to Viridor Trident Park Limited.

The permit number is EPR/LP3030XA.

We consider in reaching that decision we have taken into account all relevant considerations and legal requirements and that the permit will ensure that the appropriate level of environmental protection is provided.

### Control of the facility

We are satisfied that the applicant (now the operator) is the person who will have control over the operation of part of the facility after the grant of the permit. The decision was taken in accordance with EPR RGN 1 Understanding the meaning of operator. There is no change to the management of the facility as part of the transfer.

### Environment Management System

There is no known reason to consider that the operator will not have the management systems to enable it to comply with the permit conditions. The decision was taken in accordance with RGN 5 on Operator Competence. There is no change to the management of the facility and all environment management systems will remain as is. The Operator has an Environment Management System accredited to ISO14001 external standard.

### Relevant convictions

The National Enforcement Database (COLINS) has been checked to ensure that all relevant convictions have been declared. No relevant convictions were found. The operator satisfies the criteria in RGN 5 on Operator Competence.
