

Permit Number: EPR/BV9683IH Operator: Dunbia (Wales)
 Facility: Teify Park Abattoir and Meat Processing Plant Form Number: Sewer1 – 19/01/2021

Reporting of emissions to sewer for the period from 01/01/2020 to 31/12/2020

Emission Point	Substance / Parameter	Emission Limit Value	Reference Period	Result ^[1]	Test Method ^[2]	Sample Date and Times ^[3]	Uncertainty ^[4]
S1	Ammonia	500 mg/l	Spot Sample	No Discharge	EN ISO 11732:1997	-	6.6%
S1	BOD	6000 mg/l	Spot Sample	No Discharge	BS EN 1899-1 (1996)	-	16%
S1	Effluent Flowrate	No limit set	Spot Sample	No Discharge	Online flow meter	-	-
S1	pH	6-9	Spot Sample	No Discharge	BS 6068-2.501995, ISO 10523:1994	-	9%

The result given is the maximum value (or the minimum value in the case of a limit that is expressed as a minimum) obtained during the reporting period, expressed in the same terms as the emission limit value. Where the emission limit value is expressed as a range, the result is given as the 'minimum – maximum' measured values.

Where an internationally recognised standard test method is used the reference number is given. Where another method that has been formally agreed with Natural Resources Wales is used, then the appropriate identifier is given. In other cases, the principal technique is stated, for example gas chromatography.

For non-continuous measurements the date and time of the sample that produced the result is given. For continuous measurements the percentage of the process operating time covered by the result is given.

The uncertainty associated with the quoted result at the 95% confidence interval, unless otherwise stated.
