BY EMAIL

Dear Guy,

Resources Management (UK) Limited - WITHYHEDGE LANDFILL SITE
4th Quarterly Monitoring Report 2020

Please find enclosed a summary of the monitoring data for leachate, groundwater, surface water and landfill gas collected at Withyhedge Landfill Site for the 4th Quarter of 2020, review period October to December 2020. This letter summarises the main findings with reference to the compliance limits set in the Site Permit (reference EPR/MP3330WP, previously GP3630HT/V005).

LEACHATE

Leachate Volume

A total of 10050.52 tonnes of leachate was removed off-site during the period October to December 2020. A total of 1003 m³ was extracted from LE1 to LE6 during the review period. Data is provided in Appendix A.

Leachate levels

Leachate level monitoring data for this quarter are provided in Appendix A.

A review of the data indicates that all leachate levels recorded at the site were under the 1 metre Permit Compliance limit, consistent with the requirements in Table S4.1 of the Permit.

Leachate quality

Leachate quality monitoring data is provided in Appendix A and will be reviewed as part of the Annual Report as required by Condition 4.2 of the Permit.

GROUNDWATER

Groundwater level

Groundwater levels are recorded on a monthly basis and are provided in Appendix B.

Groundwater quality sampling

Groundwater quality sampling is undertaken on a monthly basis in accordance with Table S4.5 and Table S4.11 of the Permit. The groundwater quality monitoring data has been assessed against the compliance limits set in the Permit and are provided in Appendix B. No exceedances are noted in this quarter.

SURFACE WATER

Surface water is monitored on a monthly and quarterly basis in accordance with Table S4.3 and Table S4.10 of the Permit and the surface water quality data is attached as Appendix C. There was one exceedance of the suspended solid compliance level in this quarter. A reading of 43.2 mg/l was recorded against a compliance level of 30mg/l. An investigation is underway to identify the reasons for this failure.

LANDFILL GAS

CO₂, CH₄ and O₂ are monitored on a weekly basis at boreholes BH24, BH25, BH26, BH27 and BH28, as specified in Table S4.6 of the Permit. The remaining locations are monitored on a monthly basis as specified in Table S4.6 and S4.8 of the Permit. The results of landfill gas monitoring are provided in Appendix D. There were no exceedances of the compliance limits during the review period October to December 2020.

Point source emissions monitoring was undertaken for the Gas Engine Exhaust 1 and Engine 2 for the period October to December 2020, as required by Table S4.2 of Permit Variation reference EPR/GP3630HT/V005. The results are provided in Appendix E.

I trust that the above meets your requirements; please do not hesitate to contact me if you have any queries.

Yours sincerely,

Deborah Hall BSc MSc MRSB
