

Schedule - Notification

This page outlines the information that the operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the EP Regulations.

Part A

Permit Number	GP3830BG
Name of Operator	FCC Waste Services (UK) Limited
Location of Facility	Chirk / Pen-Y-Bont Landfill
Time and date of the detection	10/07/2020 00:00

(a) Notification requirements for any incident or accident which significantly affects or may significantly affect the environment

To be notified within 24 hours of detection

Date and Time of the event	10/07/2020
Reference or description of the location of the event	Leachate non - compliance
Description of where any release into the environment took place	
Substance(s) potentially released	
Best estimate of the quantity or rate of release of substances	
Measures taken, or intended to be taken, to stop any emission	FCC are making improvements to the current electric pumping system with the look to renew it for a pneumatic system.
Description of the failure or accident.	Pumping system failure.

(b) Notification requirements for the breach of a limit

To be notified within 24 hours of detection unless otherwise specified below

Emission point reference / source	PBLC001D, PBLC004B, PBLM004B, PBLC005B, PBLM005B, PBLM006B, PBLM007B
Parameter(s)	Leachate level (mAOD)
Limit	43 (mAOD) for all listed chambers

(b) Notification requirements for the breach of a limit	
To be notified within 24 hours of detection unless otherwise specified below	
Measure value and uncertainty	LC1D: 62.57; LC4B: 60.23; LM4B: 59.74; LC5B: 60.82; LM5B: 59.83; LM6B: 47.20; LM7B: 46.75.
Date and time of monitoring	10/07/2020 00:00
Measures taken, or intended to be taken, to stop the emission	As detailed in part A

Time periods for notification following detection of a breach of a limit	
Parameter	Notification period

(c) Notification requirements in the event of a breach of permit condition which poses an immediate danger to human health or threatens to cause an immediate significant adverse effect on the environment	
To be notified within 24 hours of detection	
Description of where the effect on the environment was detected	
Substances detected	
Concentrations of substances detected	
Date of monitoring/sampling	

Part B To be supplied as soon as practicable

Any more accurate information on the matters for notification under Part A.	FCC have become aware of pumping system issues and are addressing these as they arise.
Measures taken, or intended to be taken, to prevent a recurrence of the incident	A new pumping system is needed to prevent frequent failures caused by the current system.
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment which has been or may be caused by the emission	As detailed in section A
The dates of any unauthorised emissions from the facility in the preceding 24 months.	April, May, June 2020.

Name*	Leon Terrace
Post	Compliance Advisor
Signature	
Date	22/12/2020

* authorised to sign on behalf of the operator
