

Notice of variation and consolidation with introductory note

The Environmental Permitting (England & Wales) Regulations 2016

Severn Trent Green Power (Bridgend)
Limited

Parc Stormy Anaerobic Digestion Facility
Stormy Down
Porthcawl
Bridgend
CF33 4RS

Variation application number
EPR/AB3191FR/V005

Permit number
EPR/AB3191FR

Parc Stormy Anaerobic Digestion Facility

Permit number EPR/AB3191FR

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This is a permit variation following the publication of the revised Best Available Techniques (BAT) Reference Document (BRef) Waste Treatment. The associated BAT conclusions to this document were published on the 17 August 2018 in the Official Journal of the European Union.

This variation incorporates the changes required by the Industrial Emissions Directive following a statutory review of permits in the Waste Treatment sector. These include the amendment of the wording of several permit conditions relating to notifications, changes to emission limits and monitoring requirements. The interpretation section of the permit has also been updated and the opportunity has been taken to consolidate the original permit and subsequent variations.

We are satisfied that the operator will be compliant with the published BAT conclusions which will apply from 17 August 2022.

The rest of the installation is to be operated as follows:

This permit allows the activities listed to be carried out at a 3MWe Food Waste Anaerobic Digestion (AD) Facility at Stormy Down, Porthcawl. The facility will process and manage up to 75,000 tonnes of biodegradable organic waste per annum (including processing liquids). The facility will comprise the following elements:

- 2 x Primary and 2 x Secondary Digester tanks;
- 1 x Storage tank;
- Pumping containers;
- 3 x Pasteurisation tanks;
- 2 x CHP units with associated ancillary equipment;
- Silage clamp;
- Reception building;
- Bio-filter;
- Site office.

The schedules specify the changes made to the permit. Schedule 1 of the notice specifies the conditions that have been varied and Schedule 2 comprises a consolidated permit which reflects the changes being made.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

| Status log of the permit | | |
|---|-------------------------|---|
| Description | Date | Comments |
| Application EPR/AB3990HF/A001 | Duly made 05/01/2016 | Application for new bespoke permit to operate an AD facility. |
| Additional information received | 02/12/2015 | Revised Air Quality Assessment requested. |
| Information Received | 22/12/2015 | Revised AQ assessment received |
| Permit determined EPR/AB3191FR | 31/05/2016 | Permit issued |
| Notified of amendment to terms of the existing permit EPR/AB3191FR/V002 | Duly made 01/12/2016 | The addition to the existing permit of European Waste Code input type '16 10 02' to Schedule 2 - Table 2.2 |
| Variation issued EPR/AB3191FR | 14/02/2017 | Varied permit issued to Agrivert Limited |
| Application EPR/AB3191FR/T003 (Full transfer of permit EPR/AB3191FR) | Duly made 13/09/2018 | Application to transfer the permit in full to Agrivert (South Wales) Limited |
| Transfer determined EPR/AB3191FR | 17/10/2018 | Full transfer of permit complete |
| Notification of variation EPR/AB3191FR/V004 | Duly made 16/04/2019 | Application to update the company name |
| Variation issued EPR/AB3191FR/V004 | 14/05/2019 | Varied permit issued to Severn Trent Green Power (Bridgend) Limited |
| Regulation 61 Notice sent to the Operator | 04/04/2019 | Issue of a Notice under Regulation 61(1) of the EPR. Natural Resources Wales initiated review and variation to vary the permit following the publication of the revised Best Available Techniques (BAT) Reference Document (BRef) for Waste Treatment |
