How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
C1	Complete continuing competency test and forward NRW a copy of the certificate once complete.	03/05/2021

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

As part of Natural Resources Wales' (NRW) routine assessments for compliance, the continuing competence of the Technically Competent Manager (TCM) at Lovatt Brothers Ltd was reviewed.

Permit Breaches:**C1 Staff Competency/Training - Cat 3; Permit Condition 1.1.1 (b)**

During this review, Mr Darren Lovatt - the site's TCM, realised that his Transfer of Hazardous Waste (TSH), Metal Recycling Sites (MRS) and End-of-Life Vehicles (ELV) WAMITAB certificates had expired on the 6th of August 2020. His Treatment of Hazardous Waste (TMH) WAMITAB certificate however remains in date until the 20th of March 2021. As Lovatt Brothers Ltd permit conditions require that the activities on site be managed and operated "by sufficient persons who are competent in respect of the responsibilities to be undertaken by them in connection with the operation of the activities", the expiration of Mr Lovatt's WAMITAB certificates has resulted in the site being scored for a category 3 breach. As Mr Lovatt registered with WAMITAB to undertake the continuing competence test shortly afterwards however, and provided NRW with evidence of this, this score has been suspended.

As Mr Lovatt's continuing competence test was booked for the 18th of December 2020, it is possible that COVID-19 restrictions delayed his test. NRW regulatory decision statement states that TCMs, whose primary/continuing competency has expired, should look to re-book their test as soon as the test centres re-open. We therefore ask that Mr Lovatt re-book his continuing competency test at the earliest opportunity once the test centres re-open, and forward NRW a copy of his certificate once complete. A proposed deadline of the 3rd of May 2021 has been set for this. If COVID-19 restrictions prevent Mr Lovatt from completing this, we ask that he contact NRW with regard to this matter before the 3rd of May 2021.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
