### 1. Summary of our findings (full details in section 4)

| Part of permitted activity assessed (criteria) | Assessment result | Permit condition |
|------------------------------------------------|-------------------|------------------|
| C3 - General Management - Materials acceptance | Action only (X)   |                  |

Result types are explained in more detail in the 'Important Information' section below.

| Total number of non-compliances recorded | Total non-compliance score |
|------------------------------------------|----------------------------|
| 0                                        | 0                          |

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

### 2. What action is required?

| Criteria | Action needed                                                                                                                                                                                     | Complete by |
|----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| C3       | Review waste acceptance procedures for wastes not authorised by permit. Ensure wastes accepted under S2 exemption are dealt with separately and not reported as part of the Environmental Permit. | 05/03/2021  |

Action criteria codes are listed in the 'Important information' section below.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

## 4. Details of our assessment

### **Waste Return Review 2020**

A review of 2020 waste return submissions for permit WP3694FZ has been completed.

#### **C3 Waste Acceptance**

**Permit Condition 1.2.1 Permitted wastes: No wastes other than those which are specified in table 1.2 shall be accepted at the site.**

A review of waste return submissions found that a number of different wastes are being accepted to site which are not authorised by the permit.

For example in Quarter 4 2020, the following wastes were accepted:

EWC code 160120 : Glass

EWC code 160211 : Discarded Equipment

EWC code 200135: Discarded electrical & electronic equipment

EWC code 200136 : Discarded electrical & electronic equipment

EWC code 200139 : Plastic

EWC code 200140 : Metals

This issue was raised previously by Kathryn Bradshaw on a CAR form issued to site on 10/6/2020.

A response was received which stated that certain wastes are being accepted under an S2 exemption.

Wastes accepted under an exemption should not be reported in your waste returns for Environmental Permit WP3694FZ. Wastes should be stored and dealt with as entirely separate entities.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

| Assessment result | Description                                                       |
|-------------------|-------------------------------------------------------------------|
| Assessed (A)      | Assessed or assessed in part, no evidence of non-compliance found |
| Action only (X)   | Action only relating to the activity assessment                   |
| Ongoing (O)       | Ongoing non-compliance, not scored                                |

| Non-compliance category    | Description                                                                                                                 | Score |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------|-------|
| C1 Major                   | Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property | 60    |
| C2 Significant             | Potential to have a significant impact or effect on the environment, people and/or property                                 | 31    |
| C3 Minor                   | Potential to have a minor or minimal impact or effect on the environment, people and/or property                            | 4     |
| C4 No environmental impact | Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property       | 0.1   |

### How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

**What are suspended scores?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
