Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

This report details the site visit made on the 4th February 2021 to Gibbons Equipment Hire, Permit number EPR-FP3195FC.

Officers Alex BOWDER and Greg GARDNER attended the Gibbon Equipment Hire site at Unit 12, East Road, Penallta Industrial Estate, Ystrad Mynach CF82 7XH, for a routine site inspection at 11:35am. The weather was wet and cold all through the site visit.

To remind the company following each visit Natural Resources Wales will produce a Compliance Assessment Report (CAR) detailing our comments from the inspection. If we substantiate reasonably foreseeable risks or actual impact to the environment, we can breach the business against your permit conditions which can affect your site banding and annual subsistence fees; this is scored on a Category 1 - 4 basis:

- 1 - Major, serious persistent and/or extensive impact on the environment/people/property
- 2 – Significant impact on effect on the environment/people/property

- 3 – Minor impact or effect on the environment/people/property
- 4 – A non-compliance which has no potential environmental effect

GENERAL OBSERVATIONS

Gibbon Equipment Hire Ltd operate under a bespoke environmental permit for the storage of septic tank sludge in the EWC (European Waste Catalogue) - chemical toilet waste only. The site was in operation at the time of the visit. No waste of any type was stored outside of the permit boundary. There were numerous stockpiles of storage containers stored on site outside in the open (as seen in photo 1). The total amount of waste accepted to site must not exceed 1000 tonnes per year. According to the waste return submissions for 2020, Gibbon Equipment Hire accepted a total of 68.2 tonnes and removed 68.2 tonnes of sewage effluent which is within their annual permitted allowance.

SITE INFRASTRUCTURE

During the site inspection, there was no cause for concern regarding the site infrastructure. The floor surface was in good condition with some pooling of water however it was raining at the time of the site inspection (as seen in photo 2). Site security was not an issue due to fencing located all around the property which was secured in the places that were inspected. The interceptor drainage system was fully operational with no concerns identified.

WASTE RETURN SUBMISSIONS

Gibbon Equipment Hire Ltd have submitted all their 2020 waste return data within the specified timescales except for Quarter 3 which was submitted on 13/11/20. Please use the table below for reference of when the deadline for waste return submissions are due. As mentioned previously, there was a total of 68.2 tonnes accepted to site and 68.2 tonnes of waste removed. This was classified under the EWC as **20 03 04** septic tank sludge - chemical toilet waste only.

Waste Return Submission Deadline

Quarter	Period	Deadline
1	1 January to 31 March	30 April
2	1 April to 30 June	31 July
3	1 July to 30 September	31 October
4	1 October to 31 December	31 January

The correct disposal and recovery code was used, D15 Temporary storage of waste pending any of the operations numbered D1 to D14 (excluding temporary storage, pending collection, on the site where it is produced). No unauthorised waste streams (such as hazardous wastes) were accepted to site during 2020. All of the waste was sent to Newport County Borough Council.

Officers Alex BOWDER and Greg GARDNER left site at 12.00pm.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
