

Notice of variation and consolidation with introductory note

The Environmental Permitting (England & Wales) Regulations 2016

**Western Power Distribution (South
Wales) Plc**

**Ty Coch Depot
Ty Coch Way
Ty Coch
Cwmbran
NP44 7EZ**

Variation number

EPR/AB3091FW/V002

Permit number

EPR/AB3091FW

Ty Coch Depot

Permit number EPR/AB3091FW

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This is a permit variation following the publication of the revised Best Available Techniques (BAT) Reference Document (BRef) Waste Treatment. The associated BAT conclusions to this document were published on the 17 August 2018 in the Official Journal of the European Union.

This variation incorporates the changes required by the Industrial Emissions Directive following a statutory review of permits in the Waste Treatment sector. These include the amendment of the wording of several permit conditions relating to notifications, changes to emission limits and monitoring requirements. The interpretation section of the permit has also been updated.

We are satisfied that the operator will be compliant with the published BAT conclusions which will apply from 17 August 2022.

The rest of the installation is unchanged and continues to be operated as follows:

This permit allows for the operator (Western Power Distribution Plc) to temporarily store hazardous waste in the form of waste insulating and heat transmission oils (all EWC's under 13 03) and wastes from electrical and electronic equipment (16 02 13*). The site accepts hazardous waste recovered from work completed in substations and off-grid transformers. Waste insulating and heat transmission oils are brought to site in drums or as used product in 'wet' transformers. Transformers are drained and the oil is stored in a bulk tank until it is removed by a registered waste carrier and recovered elsewhere. Waste transformers are taken from the site by a third party.

The schedules specify the changes made to the permit. Schedule 1 of the notice specifies the conditions that have been varied and Schedule 2 comprises a consolidated permit which reflects the changes being made.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Application PAN-000034	Duly made 07/08/2015	Previous application number (EPR/BP3436AU/A001)
Permit determined EPR/AB3091FW	15/12/2015	Permit issued to Western Power Distribution (South Wales) Plc
Regulation 61(1) Notice sent to the Operator	04/04/2019	Issue of a Notice under Regulation 61(1) of the EPR. Natural Resources Wales initiated review and variation to vary the permit following the publication of the revised Best Available Techniques (BAT) Reference Document (BRef) for Waste Treatment.
Regulation 61 Notice response received	24/09/2019	Response received from the operator
Additional information received	22/07/2020	Clarifications provided to sections 1, 2, 3 and 5 of Reg 61 Notice
NRW-initiated variation determined EPR/AB3091FW /V002	19/03/2021	Varied and consolidated permit issued in modern condition format

End of introductory note

Notice of variation and consolidation

The Environmental Permitting (England and Wales) Regulations 2016

The Natural Resources Body for Wales (“Natural Resources Wales”) in exercise of its powers under regulation 20 of the Environmental Permitting (England and Wales) Regulations 2016 varies and consolidates

Permit number

EPR/AB3091FW

issued to

Western Power Distribution (South Wales) Plc (“the operator”)

whose registered office is

**Avonbank
Feeder Road
Bristol
BS2 0TB**

company registration number **02366985**

to operate an installation at

**Ty Coch Depot
Ty Coch Way
Ty Coch
Cwmbran
NP44 7EZ**

to the extent set out in the schedules.

The notice shall take effect from 19/03/2021.
