**RE: Quote for Provision of DCWW Adopted Pumping Station & Rising Main**

Dear Rhodri,

As requested please find below our quote for the design, supply and installation of a Dwr Cymru compliant adoptable foul pumping station, associated ~260m rising main drainage and street works for the foul drainage scheme shown on the CB3 foul drainage strategy drawing CC1103-C-SK003 Rev A.

The quote includes for a supply and install pump station, complete with all associated civils, test, and inspection. All RAMS will be provided prior to works commencing.

Item No.	Item Description	Unit	Rate	Cost
1	Install 1 off dual pump 3 phase pump station (Wet well, Valve Chamber, Control Kiosk & Vent) complete with all civils and M & E engineering works, testing and commissioning.	Sum	1	£45,000
2	Install Pumping Station Compound including perimeter fence	Sum	1	£12,500
3	Lay approx. 263m of rising main from pump station to discharge chamber and lay gravity pipe work to DCWW asset. Rate includes for all excavation, temporary works, and backfilling and making good. Carry out all Mechanical and Electrical work to support pump station installation.	263m	£320	£84,160 <sup>#2</sup>
4	Install final chambers (x2No. Type 2 Manholes envisaged) onto DCWW asset to receive gravity waste from discharge chamber.	Sum	1	£7,500
5	Legal Agreements For Adoption including Commuted Sum	Sum	1	£15,000

Item No.	Item Description	Unit	Rate	Cost
6	Traffic Management including all necessary design work, streetwork licences and fees	Sum	1	£15,000
7	Professional Consultancy Fees	Sum	1	£4,000
8	General preliminary cost. H&S, site welfare facilities etc.	Sum	1	£8,000
9	Underground Utility Diversions (extent Unknown)	Prov.Sum	1	£15,000 <sup>#2</sup>
			<b>TOTAL</b>	<b>£206,160<sup>#1</sup></b>

**Note**

- #1 Refer to Quotation Terms and Conditions**  
**#2 Subject to re-measure costs**

Should you have any further questions, I would be happy to answer them by phone, Email, or a personal meeting at your convenience. Thank you very much for your time and thank you for considering Metro Rod.

Regards

Gary Cleaves

## Quotation Terms and Conditions

- a) The prices offered are for the work described only and do not include for any work which becomes apparent or necessary once work commences. If this situation arises, we reserve the right to re-negotiate our quotation.
- b) The prices are based on the assumption that our engineers can commence work upon arrival to site, that continuity of work can be achieved and that the work is to take place on a non-emergency basis, unless otherwise stated. If downtime is experienced due to circumstances beyond our control, a charge pro-rata of the agreed rate will be made for that period.
- c) All manholes must be accessible with vehicular access being available where appropriate and access points being available to all blind connections.
- d) Should we be required to enter any confined space as defined by the Health & Safety at Work Act or any manhole chamber deeper than 1.2 metres, we reserve the right to amend our quotation to include for the required safety equipment to satisfy Health & Safety legislation.
- e) Jetting included within the proposal is based on the removal of silt (maximum 5-10%), loose scale and encrustation within the pipe work. Should we encounter any extraordinary object(s) requiring special equipment, we will advise you immediately and we reserve the right to re-negotiate a further charge for the extra work.
- f) Should during the course of the proposed work, we locate any problem area(s) of drainage requiring further investigation which prevents us from completing the work to any particular area, a separate report will be submitted. This will detail our findings together with recommendations for remedial action plus associated costs.
- g) Should any manhole cover(s) or access point(s) prove difficult to remove, removal of which would result in damage to the cover/frame or access point. Each will be recorded and a report submitted detailing the extra work required to enable the necessary work to be conducted from the particular location(s).

- h) Our quotation is based on the ground being firm and continuous and suitable for economical working and the method specified. No allowance has been made for rock, buried debris and clay stones, running silt or running ballast being encountered. Should obstructions be encountered during our works we reserve the right to re-negotiate our quotation.
- i) Metro Rod do not accept any financial liabilities that may arise due to failed re-lining works. The lining process always has an element of risk due to numerous factors and by acceptance of our quotation an agreement has been reached that the client has accepted/acknowledged the risks involved. Metro Rod will be happy to work with the client to carry out necessary works to resolve failed liners however; this may be subject to additional costs (upon review for each individual case).
- j) Our quotation does not include for any major dewatering systems or tanking systems to prevent major water ingress from entering any excavations which may be undertaken.
- k) The prices offered are based on normal working hours which equate to weekdays, Monday to Friday between the hours of 9am to 5pm, unless otherwise stated.
- l) Our quotation is subject to adequate access.
- m) The price quoted is valid for 90 days from the date of quotation.
- n) All prices are subject to VAT at the current rate.
