

Compliance Assessment Report CAR_NRW0037697

Permit being assessed: FP3295FN.

For: A1 Skips, held by A1 Waste Management Ltd

At: Newport Docks, Newport, Gwent, NP20 2UW.

Type of assessment carried out: Site Inspection, Reason: Routine.

On 11/02/2021 between 11:00 and 11:30.

Parts of permit assessed: A / B / C / D / F / G

NRW Lead Officer: Greg Gardner, accompanied by Alex Bowder.

Report sent to: Chris Jones, Technically Competent Manager on 04/03/2021.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
C4 - General Management - Storage, handling labelling and Segregation	Action only (X)	
A1 - Specified by permit	Assessed (A)	
B1 - Infrastructure - Engineering for prevention and control of emissions	Assessed (A)	
B2 - Infrastructure - Closure and decommissioning	Assessed (A)	
B3 - Infrastructure - Site drainage engineering (clean and foul)	Assessed (A)	
B4 - Infrastructure - Containment of stored materials	Assessed (A)	
B5 - Infrastructure - Plant and equipment	Assessed (A)	
C1 - General Management - Staff competency/training	Assessed (A)	
C2 - General Management - Management system and operating procedures	Assessed (A)	
C3 - General Management - Materials acceptance	Assessed (A)	
D1 - Incident Management - Site security	Assessed (A)	
D2 - Incident Management - Accidents, emergency and incident planning	Assessed (A)	
F1 - Amenity - Odour	Assessed (A)	
F2 - Amenity - Noise	Assessed (A)	
F3 - Amenity - Dust/fibres/particulates and litter	Assessed (A)	
F4 - Amenity - Pests/birds and scavengers	Assessed (A)	
F5 - Amenity - Deposits on road	Assessed (A)	
G1 - Monitoring and Records, Maintenance	Assessed (A)	

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
and Reporting - Monitoring of emissions and environment		
G2 - Monitoring and Records, Maintenance and Reporting - Records of activity, site diary/journal/events	Assessed (A)	
G3 - Monitoring and Records, Maintenance and Reporting - Maintenance records	Assessed (A)	
G4 - Monitoring and Records, Maintenance and Reporting - Reporting and notification to Natural Resources Wales	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
C4	Create clear waste separation piles to prevent fire risk which does not exceed a height of above 4 metres	01/03/2021

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

****This CAR Form was re-issued on 4th March 2021 to remove the G4 permit breach of 4.4.2 in relation to waste return submissions.****

This report details the site visit made on the 11th February 2021 to A1 Skips, Newport, permit reference number EPR-FP3295FN.

Officers Alex BOWDER and Greg GARDNER attended the A1 Skips site at Alexandra Docks, West Way Road, Newport, NP20 2UW for a routine site inspection at 11:00am where we met with the Site Manager. The weather was dry, and reasonably cold which it had also been the previous day.

To remind the company following each visit Natural Resources Wales will produce a Compliance Assessment Report (CAR) detailing our comments from the inspection. If we substantiate reasonably foreseeable risks or actual impact to the environment, we can

breach the business against your permit conditions which can affect your site banding and annual subsistence fees; this is scored on a Category 1 - 4 basis:

- 1 - Major, serious persistent and/or extensive impact on the environment/people/property
- 2 – Significant impact or effect on the environment/people/property
- 3 – Minor impact or effect on the environment/people/property
- 4 – A non-compliance which has no potential environmental effect

GENERAL OBSERVATIONS

A1 Skips, Newport operate a waste transfer station facility.. The maximum quantity of waste accepted and processed on this site shall not exceed 24,000 tonnes per year. The site was operational at the time of the site inspection.

SITE INFRASTRUCTURE

The general housekeeping on the site was in good condition with no major amounts of loose debris located on the floor (as seen in photo 1). There was constant movement of waste at the time of the inspection ensuring the housekeeping in the area remained of a good standard.

Photo 1 - General condition of site housekeeping

The site had an interceptor drainage system which was operational at the time of the site inspection. There were no concerns of it's operation however the general state required attention due to the amount of excess sludge within the area. We were assured by on site management that this is cleaned out regularly (daily) to prevent it from not operating correctly and efficiently.

Photo 2 - On site interceptor drainage system

Photo 3 - On site interceptor drainage system

WASTE ACTIVITIES - GENERAL

The site operates as a waste transfer station where various different types of waste are accepted, sorted and removed from site. On site a large, open ended warehouse was used to house the accepted waste prior to being separated and transported to other sites for further processing / storage. Scrap metals, non-ferrous and cardboard items are transported to EWS with wood waste is transported to South West Wood Products, Newport. Soil waste is transported to Neal Soils with any green waste transported to the nearby Newport landfill site. No ELV (End-of-Life Vehicle) waste was accepted on site. (See photo 4 below).

Photo 4 - General waste stored in open-ended warehouse

NRW officers noticed a large pile of wood which wasn't separated from the remaining general waste (as seen in photo 5). Potentially this is a fire risk as there are no distinct separations between different waste types. Although, as pointed out by site management, this waste is typically brought in and removed within a week it still has the potential for fire. It is recommended to create distinctive separation distances between various waste streams to avoid fire risk.

Photo 5 - General waste stored in open-ended warehouse

ACTION: Create clear waste separation piles to prevent fire risk.

WASTE RETURN SUBMISSIONS

A1 Skips have submitted all their waste return data for 2020. For 2020, a total of 4,636.15 tonnes of waste was accepted and a total of 13,143.41 tonnes was removed. This is within their permitted allowance and no unidentified / unauthorised waste streams were accepted.

Officers Alex BOWDER and Greg GARDNER left site at 11.30am the same day.

If you have any issues with this report please contact Greg Gardner on greg.gardner@naturalresourceswales.gov.uk

I look forward to working with the site in 2021.

Thank you.

In this document 'Natural Resources Wales' means the Natural Resource Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) Order 2012

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.

Full list of Industry and Waste action criteria (used in section 1 and 2):**A: Permitted activities**

- A1 Specified by permit

B: Infrastructure

- B1 Infrastructure – Engineering for prevention and control of emissions
- B2 Infrastructure – Closure and decommissioning
- B3 Infrastructure – Site drainage engineering (clean and foul)
- B4 Infrastructure – Containment of stored materials
- B5 Infrastructure – Plant and equipment

C: General management

- C1 General management – Staff competency/training
- C2 General management – Management system and operating procedures
- C3 General management – Materials acceptance
- C4 General management – Storage, handling, labelling and segregation

D: Incident management

- D1 Incident management – Site security
- D2 Incident management – Accidents, emergency and incident planning

E: Emissions

- E1 Emissions – Air
- E2 Emissions – Land and groundwater
- E3 Emissions – Surface water
- E4 Emissions – Sewer
- E5 Emissions – Waste

F: Amenity

- F1 Amenity – Odour
- F2 Amenity – Noise
- F3 Amenity – Dust/fibres/particulates and litter
- F4 Amenity – Pests/birds and scavengers
- F5 Amenity – Deposits on road

G: Monitoring and records, maintenance and reporting

- G1 Monitoring and records, maintenance and reporting – Monitoring of emissions and environment
- G2 Monitoring and records, maintenance and reporting – Records of activity, site diary/journal/events
- G3 Monitoring and records, maintenance and reporting – Maintenance records
- G4 Monitoring and records, maintenance and reporting – Reporting and notification to Natural Resources Wales

H: Resources efficiency

- H1 Resource efficiency – Efficient use of raw materials
- H2 Resource efficiency – Energy efficiency

Enforcement response

Any permit condition non-compliance is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within 20 working days to let you know if we agree to your request.

What do I do if I disagree with the report or have a complaint?

If you disagree with this compliance assessment report, you should contact the lead officer without delay to discuss your concerns.

If you are unable to resolve the issue with the lead officer or their line manager you should contact our Customer Contact team on 0300 065 3000 (Monday to Friday 08:00 – 18:00), or email enquiries@naturalresourceswales.gov.uk for details of how to raise your dispute further through our Complaints and Commendations procedure.

If you are dissatisfied with our response, you can contact the Public Services Ombudsman for Wales by phone on 0300 7900203 or by email at ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
