

Compliance Assessment Report CAR_NRW0037715

Permit being assessed: FB3432AY.

For: Tollgate House, held by Smith's (Gloucester) Limited

At: Tollage House, Llandough Trading Estate, Llandough, Glamorgan, CF11 8RR.

Type of assessment carried out: Site Inspection, Reason: Routine.

On 25/02/2021 between 13:10 and 13:50.

Parts of permit assessed: Permit & operational area

NRW Lead Officer: David Warwick-Brown, accompanied by Craig Coleman.

Report sent to: Kate Pittuck, Compliance Officer on 02/03/2021.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
C1 - General Management - Staff competency/training	Action only (X)	

Result types are explained in more detail in the 'Important Information' section below.

Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
C1	Submit WAMITAB continuing competency	Already completed

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Compliance Assessment Report – Smiths (Gloucester) Limited (EPR-FB3432AY)

Regulatory Officer David WARWICK-BROWN & Hazardous Waste Officer Craig COLEMAN inspected

Tollgate House on 25/02/2021 for a routine inspection. The officers met with Compliance Officer Kate Pittuck and Technically Competent Manager (TCM) Mark Evans at the site. The weather was dry and sunny. Time at site: 13:10-13:50.

Inspection

The site was relatively empty during the inspection in terms of waste, and the operation appeared to be running efficiently with no issues identified while the Officers were on site. No breaches were recorded either during or following this inspection.

There have been no reports of seagulls being an issue at the site since the last inspection on 01/08/2019. The presence of seagulls was noted during the inspection – there were a few dozen of them flying above the waste being sorted while inspecting the site – however, none of them were flying down onto the site or near any of the waste piles. Officers did not observe or smell any odorous wastes during the inspection, which was confirmed by the seagulls' lack of interest!

The acceptance and processing of hazardous wastes, including asbestos, was discussed during the inspection. The site rarely receives asbestos, but the Officers were informed that when it does it is isolated and appropriately disposed of via a specialist asbestos removal contractor.

The site has a registered S2 exemption (NRW-WME045409), allowing for the storage of specific wastes within storage limits as specified in the legislation (Environmental Permitting Regulations 2016). This exemption allowed for the site to store hazardous waste (a fridge containing CFC's) brought into the site in October 2020 - consignment notes for this waste was requested during the inspection and received afterwards.

Officers were made aware of recent ground movement/rockfall on the cliff faces along the western boundary of the site following periods of heavy rainfall within recent months. The fence along the boundary was stable and secure, and any fallen debris is removed from the drain along this perimeter as and when it falls, so there were no concerns regarding this matter.

Paperwork

The continuing competency WAMITAB certificate for Mark Evans was requested – this was received following the inspection and is up to date (expires 25/02/2022).

All waste returns are confirmed as up to date.

The updated EMS received following the previous inspection has been reviewed and approved.

Thank you for showing us around the site on this occasion.

If you have any issues with this report, please contact David Warwick-Brown on 0300 065 3683 or david.warwick-brown@cyfoethnaturiolcymru.gov.uk

In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) order.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.

Full list of Industry and Waste action criteria (used in section 1 and 2):**A: Permitted activities**

- A1 Specified by permit

B: Infrastructure

- B1 Infrastructure – Engineering for prevention and control of emissions
- B2 Infrastructure – Closure and decommissioning
- B3 Infrastructure – Site drainage engineering (clean and foul)
- B4 Infrastructure – Containment of stored materials
- B5 Infrastructure – Plant and equipment

C: General management

- C1 General management – Staff competency/training
- C2 General management – Management system and operating procedures
- C3 General management – Materials acceptance
- C4 General management – Storage, handling, labelling and segregation

D: Incident management

- D1 Incident management – Site security
- D2 Incident management – Accidents, emergency and incident planning

E: Emissions

- E1 Emissions – Air
- E2 Emissions – Land and groundwater
- E3 Emissions – Surface water
- E4 Emissions – Sewer
- E5 Emissions – Waste

F: Amenity

- F1 Amenity – Odour
- F2 Amenity – Noise
- F3 Amenity – Dust/fibres/particulates and litter
- F4 Amenity – Pests/birds and scavengers
- F5 Amenity – Deposits on road

G: Monitoring and records, maintenance and reporting

- G1 Monitoring and records, maintenance and reporting – Monitoring of emissions and environment
- G2 Monitoring and records, maintenance and reporting – Records of activity, site diary/journal/events
- G3 Monitoring and records, maintenance and reporting – Maintenance records
- G4 Monitoring and records, maintenance and reporting – Reporting and notification to Natural Resources Wales

H: Resources efficiency

- H1 Resource efficiency – Efficient use of raw materials
- H2 Resource efficiency – Energy efficiency

Enforcement response

Any permit condition non-compliance is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within 20 working days to let you know if we agree to your request.

What do I do if I disagree with the report or have a complaint?

If you disagree with this compliance assessment report, you should contact the lead officer without delay to discuss your concerns.

If you are unable to resolve the issue with the lead officer or their line manager you should contact our Customer Contact team on 0300 065 3000 (Monday to Friday 08:00 – 18:00), or email enquiries@naturalresourceswales.gov.uk for details of how to raise your dispute further through our Complaints and Commendations procedure.

If you are dissatisfied with our response, you can contact the Public Services Ombudsman for Wales by phone on 0300 7900203 or by email at ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
