3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On the 10.12.20 at 14:10 Environment officers Rhys Handley and Luke Burton carried out a permit inspection at Waun y Poun concrete batching plant. We met with John Harris plant supervisor to carry out the inspection.

During the inspection there was a breach in part 1.1 of your permit, officers witnessed the use truck wash and the effluent then being discharged through the onsite interceptor. Whilst taking a water quality sample there was evidence of foam and the smell of truck wash in the interceptor, therefore actions will be issued as the following.

As a part of your permit condition 1.1 "The discharge shall not contain any poisonous, noxious or polluting matter or solid waste matter". All truck wash effluent must be suitable for the use with your interceptor. Please consult with the interceptor manufacturer to ensure its compatibility with the truck wash being used.

See further guidance on pollution prevention for vehicle washing and cleaning below. [gpp-13-v2-plussepa-plusniea-plusnrw.pdf \(netregs.org.uk\)](#)

It was also noted that ad blue was not being correctly stored. Please see the below guidance for pollution prevention on the safe storage - drums and intermediate bulk containers. [www.netregs.org.uk/media/1693/gpp-26-safe-storage-of-drums-and-ibcs.pdf](#)

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
