22 January 2021

Dear Sir/ Madam,

Environmental Permitting (England and Wales) Regulations 2016
Newbridge Energy Limited, Ruthin
Permit PAN-005141

Natural Resources Wales (NRW) considers that you are carrying out a permissible activity without the benefit of the relevant environmental permit.

Whilst there is an environmental permit in existence for the site which allows the operation of a single CHP Biomass Boiler / Specified Generator, it has come to the attention of NRW that a second plant has recently been brought on-line that is not covered by the permit.

It is an offence under regulation 12(1) of the 2016 regulations to carry out a permissible activity that isn't authorised.

The operation of the second unit is therefore unlawful and must cease until the relevant permit is in place.

The relevant application form can be found on our website using the link below.

<https://naturalresourceswales.gov.uk/permits-and-permissions/medium-combustion-plant-and-specified-generator-activities/?lang=en>

Please confirm receipt of this letter and that the second CHP plant will be taken offline immediately.

NRW will consider our enforcement response to this breach of the Regulations in line with our enforcement and prosecution policy.

If you have any questions regarding the content of the letter please contact Jamie Blythin using the details below.

Yours faithfully

A handwritten signature in black ink, appearing to read 'D Powell', with a horizontal line extending to the right.

David Powell
Operations Manager North East
