No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Compliance Assessment Report

Officer Jonathan LEE in attendance of Caerphilly Skip Hire, Llanbradach to complete a compliance inspection of the environmental permit EPR-EP3994LG. Weather was cool but dry. The site was operational at the time of the inspection, officer LEE met with site manager Michael JONES who conducted a tour of the permitted area.

Compliance

An inspection of the permitted area was completed. All incoming wastes were being sorted and processed in the 'top yard' of the permitted area, with separated fractions of waste clearly identified and stored within the appropriate separate areas or sealed skips of the yard.

The 'bottom yard' was also inspected, only waste within sealed Ro-Ro skips is permitted to being stored in this area. This was being adhered to by the operator.

No permit breaches in relation to site infrastructure, storage of waste or site management were identified during the course of the inspection.

Noise Incidents

Officer LEE discussed that Natural Resources Wales had received several incident reports in January and February 2021. These incidents concerned noise emanating from vehicular movements travelling to and from the site (via Colliery Road), typically during the early hours of the morning. Whilst incidents of this nature are not within the regulatory remit of Natural Resources Wales, good practice in relation to general site activity and vehicles entering and leaving the site was discussed. It was noted that the operator has acted in regard to these incidents, for example not fuelling vehicles and changing empty skips in the early hours of the morning.

Permit condition 1.1.1 and permit condition 3.3.1 require (in brief) the management of the site and its activities in line with the current Environmental Management System (EMS) and Noise & Vibration Management Plan documentation. Natural Resources Wales remind you that it can take regulatory action if incidents are substantiated to be emanating from the permitted waste management activities, and the activity of the site is not being carried out in accordance with the above documentation. To date, noise incidents relating to the permitted waste management activities have not been substantiated.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
