

ENVIRONMENTAL MANAGEMENT RECORDS

Subject: Schedule 1: Notification of abnormal emissions

Doc Id: WX-EMS-0023-EMR
Revision: 1
Date: March 2009

Part A:

Permit Number	BV 8016 ID
Name of Operator	Kellogg's Company of Great Britain Ltd
Location of Installation	Wrexham Breakfast Cereals
Location of Emission	East Balancing Pond out of specification
Time and date of Emission	07:00am 10 th March 2021

Substance(s) emitted	Media	Best estimate of quantity or rate of emission	Time during the emission took place
Out of specification on BOD	BOD		07:00am

Measures taken or intended to be taken to stop the emission

As part of the daily monitoring it was found that the East balancing pond COD reading was out of specification (90 mg/l). Pond was immediately closed. Retest has been conducted in which the reading was back within specification (45 mg/l) and the pond was reopened. Pond will continue to be monitored.

On this date we carried out our weekly BOD sample which is taken and sent for testing to an external laboratory. We received the results back on the 26th March 2021 confirming that the BOD result had come back at 62.45mg/l against a limit of 30mg/l.

I can confirm that the East balancing pond was closed at the time the BOD sample had been taken and submitted as part of our in house monitoring procedures.

Part B:

Any more accurate information on the matters for notification under Part A	
Measures taken or intended to be taken to prevent a recurrence of the incident	Our in house procedure had already enabled us to close the ponds and carry out further COD and TSS testing in house. The pond was reopened once the COD results were back within the required limit.
Measures taken or intended to be taken to rectify, limit or prevent any pollution of the Environment or harm which has been or may be caused by the emission	Requested external UKAS accredited Laboratory Eurofins to confirm why the internal escalation period had not been adhered too. Received email confirming that they have had a new system and escalation had not been activated which has all been addressed and back up and working correctly.
