

## Compliance Assessment Report CAR\_NRW0037796

**Permit being assessed:** WP3598VF.

For: Mobile Plant S R 2010 No 4, held by John Cherry

At: Dolfor, Newtown, Powys, SY16 4AE.

**Type of assessment carried out:** Report/Data Review, Reason: Routine.

On 22/03/2021.

Parts of permit assessed: Competency of Technically Competent Manager (TCM)

**NRW Lead Officer:** Bethan Lewis.

**Report sent to:** John Cherry, TCM on 22/03/2021.

### 1. Summary of our findings (full details in section 4)

| Part of permitted activity assessed (criteria)      | Assessment result | Permit condition |
|-----------------------------------------------------|-------------------|------------------|
| C1 - General Management - Staff competency/training | Assessed (A)      |                  |

Result types are explained in more detail in the 'Important Information' section below.

| Total number of non-compliances recorded | Total non-compliance score |
|------------------------------------------|----------------------------|
| 0                                        | 0                          |

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

### 2. What action is required?

No action required.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

As part of Natural Resources Wales' (NRW) routine assessments for compliance, the continuing competence of the Technically Competent Manager (TCM) at the above mobile plant was reviewed.

According to NRW records, the latest continuing competence certificate of John Cherry, the

mobile plant's TCM, expired on the 28th of June 2020. An email was therefore sent on the 18th of November 2020, requesting a copy of his latest continuing competence certificate or evidence of his registration with WAMITAB, as per NRW regulatory decision statement which acknowledges the impact COVID-19 restrictions may currently have on the ability of TCMs to undertake continuing competency tests. On the 21st of November 2020 however, NRW were informed that as the mobile plant no longer has a waste stream in which a deployment is needed, a certified TCM is not currently required.

Prior to any future deployment applications, the mobile plant will require adequate TCM provision. John Cherry will therefore have to complete his continuing competence test prior to any future deployments.

*In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) order 2012.*

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

| Assessment result | Description                                                       |
|-------------------|-------------------------------------------------------------------|
| Assessed (A)      | Assessed or assessed in part, no evidence of non-compliance found |
| Action only (X)   | Action only relating to the activity assessment                   |
| Ongoing (O)       | Ongoing non-compliance, not scored                                |

| Non-compliance category    | Description                                                                                                                 | Score |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------|-------|
| C1 Major                   | Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property | 60    |
| C2 Significant             | Potential to have a significant impact or effect on the environment, people and/or property                                 | 31    |
| C3 Minor                   | Potential to have a minor or minimal impact or effect on the environment, people and/or property                            | 4     |
| C4 No environmental impact | Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property       | 0.1   |

### How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

**What are suspended scores?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
