

Notice of variation and consolidation with introductory note

The Environmental Permitting (England & Wales) Regulations 2016

**Welsh Water Organic Energy (Cardiff)
Limited**

**Lamby Way Open Windrow
Composting Facility
Lamby Way
Rumney
Cardiff
CF3 2EH**

Variation number

EPR/AB3096CP/V004

Permit number

EPR/AB3096CP

Lamby Way Open Windrow Composting Facility

Permit number EPR/AB3096CP

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This is a permit variation following the publication of the revised Best Available Techniques (BAT) Reference Document (BRef) Waste Treatment. The associated BAT conclusions to this document were published on the 17 August 2018 in the Official Journal of the European Union.

This variation incorporates the changes required by the Industrial Emissions Directive following a statutory review of permits in the Waste Treatment sector. These include the amendment of the wording of several permit conditions relating to notifications, changes to emission limits and monitoring requirements. The interpretation section of the permit has also been updated and the opportunity has been taken to consolidate the original permit and subsequent variations.

We are satisfied that the operator will be compliant with the published BAT conclusions which will apply from 17 August 2022.

The rest of the installation is unchanged and continues to be operated as follows:

This is a tier 3 bespoke installation permit for a biological activity – composting in open windrows. The site operates under Section 5.4A (1) (b) (i) of Schedule 1 of the Environmental Permitting Regulations 2016.

Treatment operations are limited to preparatory treatment of waste and biological treatment; stabilisation and maturation. All treatment is for the purpose of recovery only, and may be by either mechanical and/or manual methods.

The permit does not allow any point source emissions into surface water or groundwater except clean, un-contaminated rainfall dependant drainage from areas that are not used in connection with the storage or treatment of waste.

Discharge from the permitted activity (areas of the site used in connection with the storage and/or treatment of waste) is to foul sewer, in accordance with a trade effluent consent issued by the sewerage undertaker.

The burning of any wastes, either in the open, inside buildings or in any form of incinerator is not permitted.

The schedules specify the changes made to the permit. Schedule 1 of the notice specifies the conditions that have been varied and Schedule 2 comprises a consolidated permit which reflects the changes being made.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Application received EPR/AB3096CP/T001	Duly made 04/03/2015	Part transfer application, transfer of open windrow composting activity from the City of Cardiff Council to Kelda Organic Energy (Cardiff) Ltd
Additional information received in response to draft permit consultation	16/07/2015	Odour management plan and bioaerosol monitoring plan
Permit determined EPR/AB3096CP	29/02/2016	Permit for open windrow composting activity issued to Kelda Organic Energy (Cardiff) Ltd
Application received EPR/AB3096CP/V002	29/02/2016	Application to vary Tier 3 waste facility permit to become a Tier 3 Installation permit
Application EPR/AB3096CP/V002	Duly Made 30/03/2016	
Permit determined EPR/AB3096CP/V002	24/06/2016	
Notification of variation EPR/AB3096CP/V003	30/01/2019	Update the company name and registered office address
Variation issued EPR/AB3096CP/V003	09/04/2019	Varied permit issued to Welsh Water Organic Energy (Cardiff) Ltd
