

APPLICATION FOR A MARINE LICENCE FOR MARINE WORKS

Marine Works include, but are not limited to, coast defences, beneficial uses of dredged materials, subsea cables, pontoons, jetties, land reclamation, grab samples and outfall pipes under the Marine and Coastal Access Act 2009

Please read the notes carefully before completing the form.

- The Marine Licensing Team (MLT) administers Part 4 of the Marine and Coastal Access Act 2009 on behalf of the Licensing Authority, the Welsh Ministers.
- The completed application form must be accompanied by a location plan and, where appropriate, descriptive drawing(s) and any supporting environmental assessments. One completed hard copy of the application and supporting documents will always be required. Additional copies are required for consultation purposes.
 - For application and supporting documents less than 10MB we can accept an additional copy via email.
 - For applications larger than 10MB **16** additional copies in CD/DVD format will be required
 - When applications and supporting documents are hard copy only **16** copies will be required.
- Please submit applications to the **Permit Receipt Centre** via the details at the top of this form
- Please submit marine licence applications, including this form and all supporting documents, **at least 4 months before the licence is required.**

Some projects may raise matters that require a significantly longer time for consideration. These are most likely to be:

- Projects that fall **within** The Marine Works (Environmental Impact Assessment) Regulations 2007 – as amended requiring an Environmental Statement
- Large scale projects with substantial volumes of material being deposited or excavated
- Works requiring an Appropriate Assessment to be conducted under The Conservation of Habitats and Species Regulations 2017.
- Information should be provided about the anticipated **duration of the entire project** in respect of works below/seaward of Mean High Water Spring (MHWS). Where appropriate, planned phasing of the work for which consent is sought must be detailed. For projects lasting more than one calendar year, planned phasing details must be given for each 12 month period.

A licence fee is payable in respect of an application. Details of fees can be found on our web pages.

Please note applications will not be processed without the correct relevant fee or invoicing details.

- Payments can be made via Cheque, BACS or credit/debit card.
 - Cheques should be crossed and made payable to **Natural Resources Wales.**
 - For BACS payments ensure you provide the reference number (not remittance number)

- For credit/debit card payments please complete the CC1 form and submit with the application. The CC1 form can be found on our web pages

Further information on payment methods can be found on our web pages

- **All activities need to comply with the Water Framework Directive (WFD). The framework and guidance can be found on the Natural Resources Wales website, <http://naturalresources.wales>. The results of your WFD assessment must be attached to your marine licence application.**
- Please answer all questions. If any information is not available at the time of application please indicate in the relevant section, giving reasoning in a covering letter. Outstanding details must be submitted as soon as possible. Any delay in forwarding details is likely to result in delays in determining your application.

Your application may not be considered complete and therefore not processed until key information has been submitted. Your application may be returned if you fail to submit outstanding information within given timescales.

- Please note any licence may have conditions that must be discharged before works can commence. This will take additional time.
- If you have any queries with regards to completing this application please contact the MLT: marinelicensing@naturalresourceswales.gov.uk

How your application will be processed by the MLT:

- Submit all application to the **Permit Receipt Centre** via the details at the top of this form.
- Checked and acknowledged by the MLT within 21 days of receipt of application and payment
- If the application is complete and no further information is needed at this time, your application will be placed in a work queue to be assigned a permitting officer
- If the application is not complete, further information will be request and need to be provided before the application can be considered as complete
- Our **4 months** service level for determining non-EIA applications will begin from the date the **completed** application is received (*Please note some projects may take significantly longer than 4 months to determine due to their nature*)
- EIA projects may take significantly longer due to their scale and complexity. Therefore we encourage early engagement with the MLT
- Your application and supporting documents will be sent to for an initial consultation period of 28 days (*42 days for EIA projects*)
- For the majority of projects, a public notice must be advertised. Public consultation will be 28 days (*49 days for EIA projects*).
For EIA projects a second public notice will be required. The MLT will advise on how this should be done.
- Responses to consultation will be considered and additional information requested at this time, if necessary.

- A decision on your Marine Licence Application will be made

All information submitted may be referred to within a licence, therefore all works must be in accordance with this information, unless otherwise agreed with NRW acting on behalf of the Licensing Authority during the determination process.

It is the responsibility of the applicant to obtain any other consents/authorisations that may be required.

Application Form Structure

1. Project Description and Cost
2. Applicant Details
3. Details of Agent, Contractor, Vehicles and/or Vessels used to carry out works
4. Environmental Impact Assessment (EIA)
5. Licensable Period
6. Project Description
7. Methods Statement
8. Materials of Project
9. Beach Replenishment, Land Reclamation or Salt Marsh Feeding
10. Temporary Works
11. Dredge and Disposal of Dredge Material
12. Protected Sites
13. Other Consents
14. Statutory Powers
15. Public Register
16. Application Fee
17. Declaration

Check List

Please ensure that you have included all the necessary information before you submit your application. **If any of the below are not completed in the application form, the application is likely to be considered incomplete and may be returned to you**

| Item | Yes (✓) |
|--|---------|
| The applicant is a legal entity? | ✓ |
| The declaration is signed by the applicant? | ✓ |
| Is the application fee correct? | ✓ |
| Are the grid references/coordinates correct? | ✓ |
| Do the coordinates match map locations? | ✓ |
| Have all the relevant supporting documents been submitted? | ✓ |
| Has a clear methodology been provided in the application form? | ✓ |
| Has Protected sites information been included? | ✓ |
| Has a Water Framework Directive (WFD) assessment been submitted? | ✓ |
| Are all the continuation sheets for application questions appended with correct corresponding numbers? | ✓ |

Should you have any queries regarding your application please contact the MLT via marinelicensing@naturalresourceswales.gov.uk

1. Project Description and Cost

1 (a). Project Name

Cardigan Lower Town Outfall, Discharge Chamber and Headwall

1(b). Please provide a brief description of the proposed project, including location

The existing Combined Sewer Overflow (CSO) on St Marys Street, Cardigan currently tide lock (non-return valve on the discharge point to stop water backflowing from the river into the sewage system) during high tide from the River Teifi. This leads to flooding to streets and nearby residential properties surrounding St Marys Street. A new underground pumping station is proposed in Morgan Street approximately 90m from the existing St Mary's Street CSO, and a new discharge chamber, outfall pipe and headwall located at SN 17848 45906.

Permit Application and appending Solution document for the new location were submitted to the National Permit Receipt Centre on 11/03/21

1(c). Please provide an estimated gross cost of the project (Inc. materials and labour) for works that fall below/seaward of Mean High Water Springs (MHWS)

£45,000

2. Applicant Details

To whom the licence will be issued. *This must be a legal entity such as an individual, registered company/ charity or public body.*

Title

Mr

Full Name

Sean Murray

Company or Trading Name

Morgan Sindall

Company Registration Number (if applicable)

04273754

Name of Contact or individual (if different)

Position in Company

Senior Construction Manager

Address inc. postcode (provide registered Company address if applicable)

Registered Company Address:
Kent House,
14-17 Market Place,
London
W1W 8AJ

Telephone Number

01788 534500

Email Address

3. Details of Agent, Contractor, Vehicles and/or Vessels used to carry out works

3(a). Agent Details

This is who we will correspond with unless otherwise informed. If no agent we will contact the applicant.

Title Full Name

Company or Trading Name

Company Registration Number (if applicable)

Name of Contact or individual (if different)

Position in Company

Address (Inc. postcode)

Telephone Number

Email Address

3(b). Does the Applicant wish to be included in all correspondence? Yes No

3(c). Contractor Details

In order for contractors to benefit from the licence permission, details must be provided. Any details not provided with application must be confirmed before operations commence.

| Contractor Company or Trading Name | Address |
|------------------------------------|--|
| Morgan Sindall | Registered Company Address: Kent House, 14-17 Market Place, London W1W 8AJ |

3(d). Will the works require the use of vessels?

Yes No

3(d) (i). Vessel Details (if applicable and available)

In order for contractors to benefit from the licence permission, details must be provided.

Any details not provided with application must be confirmed before operations commence.

| Operator | Name of Vessel | Type of Vessel | Vessel Registration Number | Country of Registration |
|----------|----------------|----------------|----------------------------|-------------------------|
| | | | | |
| | | | | |
| | | | | |
| | | | | |

3(e). Will the works require the use of vehicle?

Yes No

3(e) (i). Vehicle Details (if applicable and available) to be used below MHWS

In order for contractors to benefit from the licence permission, details must be provided.

Any details not provided with application must be confirmed before operations commence.

| Operator | Type/Description of Vehicle |
|----------------|--------------------------------------|
| Morgan Sindall | Various sized 360 tracked Excavators |
| Morgan Sindall | 6t Dumper |
| Morgan Sindall | BoMag 120 Compaction Roller |
| | |

3(f). If the contractor or vessels or vehicles are not known at the application stage, when do you expect to provide these details?

These details will need to be confirmed prior to the licence and operations commencement

4. Environmental Impact Assessment (EIA)

Certain projects, due to their scale, location and/or nature, may require an EIA under the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended). If a project qualifies under EIA, an Environmental Statement (ES) must be prepared and submitted with the application.

Projects that fall within Annex I of the Directive automatically require an EIA. Projects that fall within Annex II of the Directive are assessed on a case-by-case basis for the requirement for an EIA to be undertaken.

4(a). Do you consider the works to be under the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended)? Yes No

4(a) (i) If Yes, which Annex does the proposal fall under? Annex I Annex II

4(a) (ii) Which number(s) within the Annex does the proposal relate to?

4(b). Have you applied for a screening or scoping opinion from the MLT under the Marine Works (Environmental Impact Assessment) Regulations 2007 (as amended)? Yes No

4(b) (i). If Yes, please provide the reference number

4(c). Has an Environmental Impact Assessment been undertaken? Yes No

4(c)(i). If Yes, has an Environmental Statement been submitted to support this Marine Licence application? Yes No

4(d). If an Environmental Impact Assessment has been undertaken, but an ES has not been submitted, please provide an explanation

Please continue on a separate sheet if necessary. Please tick if you have done this

5. Licensable Period

Determination of applications will be based on the works taking place during these dates. Please ensure you have included an adequate contingency period. If works are not completed by the Requested Licence Expiry Date you may be required to submit a new application. *Including a contingency period within your original application does not impact on Licence Fee*

Start Date

Requested Licence Expiry Date

*Please ensure you submit your application for a Marine Licence **at least 4 months** prior to the intended start date. Some projects, such as EIA projects, will take significantly longer to determine.*

6. Project Description

6(a). Please give a description of the proposed project.

This should include the purpose of the project, estimated timescales of construction and operation, and broken down by the phases of works, if applicable.

Details should include, but not be limited to, dimensions of project, quantity of material being deposited and removed.

Purpose of the project - The existing Combined Sewer Overflow (CSO) on St Marys Street, Cardigan currently tide lock (non-return valve on the discharge point to stop water backflowing from the river into the sewage system) during high tide from the River Teifi. This leads to flooding to streets and nearby residential properties surrounding St Marys Street. A new underground pumping station is proposed in Morgan Street approximately 90m from the existing St Mary's Street CSO, and a new discharge chamber, outfall pipe and headwall located at SN 17848 45906.

Total area of the works (including site compound) – 820m². The area below MHWS, containing the discharge chamber, headwall and outfall, will be 54m² (see Appendix F).

Construction period – 6 weeks (approximately)

Operation period – 60 years

Please refer to the Method Statement in Appendix A for further information on the phasing of the project.

See Appendix C and D for a site location plan and cross-section plan and Appendix F for a plan of the Discharge Chamber, Headwall and Outfall.

Please continue on a separate sheet if necessary. Please tick if you have done this

6(b). Please detail the location of the proposed construction project.

This should be either Ordnance Survey National Grid Reference (i.e. AB 12345 67890) or Latitude and Longitude in decimal degrees to 4 decimal places (i.e. Lat 52.1234 Long - 4.1234), defining the extent of the project. **Please specify which coordinate system has been used.**

The national grid references for a polygon of the proposed works are as follows:

SN 17842 45910

SN17845 45914

SN 17847 45900

SN 17852 45903

See Appendix F for their locations.

Please continue on a separate sheet if necessary. Please tick if you have done this

6(c). The following must be provided with the completed application form:

- (i) a suitably scaled extract of an Ordnance Survey Map or Admiralty Chart with location of project, complete with **North Arrow** and **Scale**
- (ii) construction plans and sectional drawings showing those proposed works below/seaward of MHWS, which should give details of the materials to be used (for beach replenishment the quantity, particle size and source of material to be deposited and deposit location is also required).
- (iii) a descriptive schematic drawing and suitably scaled location plan which show the full extent of the project clearly in relation to the surrounding area and features.

Please list below **all supporting documents** that have been submitted with this application, including suitable documents/maps/drawing titles and reference numbers

Appendix A: Method Statement
Appendix B: Environmental Constraints Plan
Appendix C: Access Route
Appendix D: Cross-sectional and plan drawing of the proposed works
Appendix E: Location plan of the overall works
Appendix F: Discharge Chamber, Headwall and Outfall Plan
Appendix G: Habitats Regulation Assessment
Appendix H: Continued questions
Appendix I: Water Framework Directive (WFD)
In addition, the 'Solution Document' was submitted to the National Permit Receipt Centre support this application on 11/03/2021.

Please continue on a separate sheet if necessary. Please tick if you have done this

The applicant should note that these drawings/plans may be copied to others as part of the MLT's consultation procedures. If they are subject to copyright, it is the **responsibility of the applicant to obtain the necessary approvals to reproduce the documents and to submit up to 16 copies with the application.**

7. Methods Statement

7(a). Please provide a detailed method statement for the works

This must include methods for all works including temporary structures or deposits such as jetties, cofferdams, moorings or landing stages to be constructed seaward of MHWS

Please see Appendix A.

Please continue on a separate sheet if necessary. Please tick if you have done this

7(b). Do you intend to undertake activities that could generate underwater noise?

This include piling, use of explosives, geophysical, acoustic deterrent devices and multibeam echosounders.

Yes No

7(b) (i). If Yes, what type(s) of activities will be undertaken?

7(b) (ii). If Yes, approximately how many days will the activity be undertaken for?

If Yes, you will be required to complete an additional form that will be provided.

7(c). Please state the measures to be taken to:

(i) Minimise risk to the marine environment

- All plant will be inspected for leaks prior to accessing the foreshore to help prevent any pollution incidents
- All refuelling of plant will be carried out away from all watercourses. All fuels and chemicals will be kept to minimum on site and secured in either banded bowsters or on suitable drip trays. COSHH will be kept in a lockable store.
- A micro silica marine grade concrete shall be used to help prevent alkaline leachate and provide increased scour and washout protection. A specific concrete wash out location will be created on site for the cleaning of plant and delivery lorries to prevent contamination of the ground. (Continued in Appendix H)

(ii) Prevent undue interference to others

- The site working hours will be between 07:30 and 17:30 Monday to Friday. When works to the discharge chamber are underway exact working hours will be dictated by tide times, although they will be within these hours. There will be no weekend working.
- Meetings have been held with Welsh Water operations and a traffic/pedestrian plan has been agreed to ensure segregation for plant and personal during the works. (Continued in Appendix H)

(iii) Maintain navigational safety, including marking and lighting of works

- Signs will be provided to highlight the dangers present.
- Moving plant will be highlighted with flashing beacons.

Please continue on a separate sheet if necessary. Please tick if you have done this

8. Materials of Project

8(a). Description of materials to be deposited seaward of MHS (Please tick all that apply)

| | | | | | | | |
|--------|-------------------------------------|------------|-------------------------------------|----------|-------------------------------------|--------------------------|-------------------------------------|
| Timber | <input checked="" type="checkbox"/> | Iron/Steel | <input checked="" type="checkbox"/> | Concrete | <input checked="" type="checkbox"/> | Biocides/other chemicals | <input type="checkbox"/> |
| Silt | <input type="checkbox"/> | Stone/Rock | <input checked="" type="checkbox"/> | Gravel | <input type="checkbox"/> | Plastic/Synthetics | <input checked="" type="checkbox"/> |
| Sand | <input type="checkbox"/> | Other | <input checked="" type="checkbox"/> | | | | |

If other, please provide a description of materials.

- Rock mattresses, comprising 3mm synthetic polyethylene braided, knotted nets and 40-75mm frost resistant granite
- Bionet erosion control blanket (Coconut fibre, 100% biodegradable Jute)
- Pre-cast Concrete units
- Structural concrete: marine grade
- Ductile iron (pipework)
- Neoprene (non return valve)

Volumes:

- Area to rear of chamber: 5m²; 2.8m deep – 14m³ In-situ concrete
- Discharge chamber: 10m²; 2.7m deep – 27.6m³ (excl int chamber vol) pre cast and in-situ concrete
- Discharge pipework: 4m²; 1.5m deep – 5.5m³ (excl int pipe vol) in-situ concrete, DI pipework and check valves.
- Headwall: 6m²; 1.3m deep – 2.5m³ (excl int headwall vol) pre-cast concrete
- Downstream bank: 20m²; 0.25m deep – 5m³, pre-formed rock beds.

Total: 54.6m³

8(b). Delivery method of materials to site

If sea delivery, please include details of vessels to be used with a chart of proposed route and transshipment area. If vehicle delivery, please provide the proposed access route.

By truck. Access to the works and welfare compound will be via Morgan's street (see Appendix C).

Please continue on a separate sheet if necessary. Please tick if you have done this

8(c). Will the works involve removals seaward of MHWS? Yes No

8(c) (i). Description of materials to be removed seaward of MHWS (Please tick all that apply)

- | | | | | | | | |
|--------|-------------------------------------|------------|-------------------------------------|----------|-------------------------------------|--------------------------|--------------------------|
| Timber | <input type="checkbox"/> | Iron/Steel | <input type="checkbox"/> | Concrete | <input type="checkbox"/> | Biocides/other chemicals | <input type="checkbox"/> |
| Silt | <input checked="" type="checkbox"/> | Stone/Rock | <input checked="" type="checkbox"/> | Gravel | <input checked="" type="checkbox"/> | Plastic/Synthetics | <input type="checkbox"/> |
| Sand | <input checked="" type="checkbox"/> | Other | <input type="checkbox"/> | | | | |

8(c) (ii). Description of objects/materials to be removed seaward of MHWS
Including quantities to be removed.

The area for the proposed works will be excavated and the below volumes removed.
Volumes:
- Area to rear of chamber: 5m²; 1.7m deep – 8.5m³
- Discharge chamber: 10m²; 1.3m deep – 13m³
- Discharge pipework: 4m²; 1.0m deep – 4m³
- Headwall: 6m²; 0.7m deep – 4.2m³
- Downstream bank: 20m²; 0.25m deep – 5m³
Total: 34.7m³

9. Beach Replenishment, Land Reclamation or Salt Marsh Feeding

For works involving any of the above, please provide the following information

9(a). Is the material to be deposited like for like to existing material? Yes No

9(a)(i) If No for Beach Replenishment please provide justification why?

9(b). Description of material to be deposited

Please provide the grading specification of materials to be used, if using a range of grain sizes please state the percentage by weight passing. *If unsure, please refer to the Wentworth Scale*

9(c). Source of the material to be deposited
Including dredged or land based stating the origin of material

9(d). Has the material been chemically analysed? Yes No
If material has been analysed, we may request this information to determine the application

9(d) (i) If Yes, is the analysis data been included with the application? Yes No

10. Temporary Works

10(a). Will there be any temporary deposits below MHWS? Yes No
This includes construction materials, removed objects/material, jetties or cofferdams
If **Yes**, please continue with section **10**

10(b). Please provide the location of temporary deposits
Please include a map/chart displaying the location of temporary deposits, if necessary.

See Appendices D and F.

10(c). Description of temporary deposits

- Jumbo sand bags (temp)
- Scaffold tubes (temp)
- Oil absorbent boom and silt curtain (temp, removed when not in use)
- Timber shuttering (temp, marine grade)

See the methodology in Appendix A for further information.

Please continue on a separate sheet if necessary. Please tick if you have done this

11. Dredge and Disposal of Dredge Material

If you are undertaking Dredge and Disposal activities please also complete the Dredge and Disposal application form and submit together.

11(a). Do you intend to apply for a marine licence to dispose of dredged material to sea as part of the works in this application? Yes No

12. Protected Sites

Licensing Authorities have a duty to ensure that projects will **not have significant adverse environmental impact**, particularly on any designated **European Site of Conservation Importance - Special Areas of Conservation (SAC) and Special Protection Areas (SPA), listed under the Habitats Directive (Council Directive 92/42/EEC on the conservation of natural habitats and of wild fauna and flora)**. In addition, it is Government Policy that Wetlands of International Importance (Ramsar sites) are also considered as European Sites. There is a duty to take reasonable steps to further the conservation and enhancement of nationally designated sites (Sites of Special Scientific Interest (SSSIs)).

12(a). Have you had pre-application correspondence with NRW, its legacy bodies or Natural England? Yes No

12(a)(i). If Yes, please provide copies of correspondence with application and state which team(s) you have contacted?

N/A

12(b). Are any part of the works located *within or likely to affect* a designated conservation site? (SAC, SPA, SSSI or Ramsar) Yes No

12(b)(i). If Yes, which designated site(s) may be affected?

River Teifi SAC & Afon Teifi (Teifi Estuary Woodland and Marshes) SSSI.

12(c). Please provide a description of all mitigation measures proposed to avoid any impact on designated conservation sites.

A Habitats Regulations Assessment has been undertaken, the findings of which are appended to this application (see Appendix G) for consultation with NRW. Proposed mitigation measures are contained within the report.

Please continue on a separate sheet if necessary. Please tick if you have done this

12(d). If the works are not located *within or likely to affect* a designated conservation site, please indicated the approximate distance to the nearest designated conservation site.

Other European sites also addressed in HRA:

- Cardigan Bay / Bae Ceredigion SAC – 3.2km north-west of the site;
- West Wales Marine / Gorllewin Cymru Forol SAC – 3.9km north-west of the site; and
- North Pembrokeshire Woodlands / Coedydd Gogledd Sir Benfro SAC – 7.9km south-west of the site.

Please note that if the proposed works are in or within 2km of a European Site of Conservation Importance you will have to provide suitable mitigation measure to avoid any impact on designated conservation sites.

13. Other Consents

Please detail all consents that you have applied for or received for these works

| Type of Consent | Applied for | To be applied for | Reference Number | Date of Issue and Expiry |
|--|---|-------------------|------------------|--------------------------|
| Planning Permission under Town and County Planning Act 1990 – From Local Planning Authority (LPA) | X | | A201007 | |
| Name and Address of LPA for location of works | Ceredigion County Council Neuadd Cyngor Ceredigion Penmorfa Aberaeron Ceredigion SA46 0PA | | | |
| Land Owners Consent such as The Crown Estate Consent | | X | | |
| Port Authority or Local Harbour permissions | | | | |
| Other NRW consents such as Flood Defence or SSSI assent | | | | |
| Details of NRW consent | | | | |
| Other consents such as Transport and Works Act Order, Section 36 Electricity Act, grant/loan sanction | | | | |
| Details of other consents | | | | |

14. Statutory Powers

14(a).Does the applicant have statutory powers to consent any aspect of the project?
E.g. coast protection authority, dredging powers, statutory undertakers Yes No

14(a)(i).If Yes, please give details and state the relevant legislation that gives these powers

Morgan Sindall Construction & Infrastructure Ltd. will undertake the works on behalf of Dŵr Cymru Welsh Water (DCWW) pursuant to statutory undertaker rights under Part 16 Town and Country Planning (General Permitted Development) Order 1995.

15. Public Register

Under The Marine Licensing (Register of Licensing Information)(Wales) Regulations 2011 and the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended) , all information contained within or provided in support of this application will be placed on the Public Register unless NRW approve of the applicant's reasons for withholding all or part.

15. Is there any information contained within or provided in support of this application that you consider should NOT be included on the Public Register on the grounds that its disclosure:

15(a). Would be contrary to the interest of National Security? Yes No

15(b). Would prejudice to an unreasonable degree you, or some other person's commercial interest of those of a third party? Yes No

If **Yes** to either (a) or (b), please provide full justification as to why all or part of the information you have provided should be withheld

Please continue on a separate sheet if necessary. Please tick if you have done this

16. Application Fee

16(a). What are the corresponding fee band for this application? Band 2 Band 3

16(b) Band 2 Only

Projects are charged at a fixed fee of £1920. The application will not be processed until the correct fee has been provided.

Please provide the method of payment

| Method | Yes (✓) | Reference Number |
|----------------------------------|---------|------------------------------------|
| Cheque | | |
| BACS (not remittance no.) | X | Cardigan Lower Town Marine Licence |
| World Pay (phone or CC1) | | |

Please attach **CC1 Form** with application. Can be found on our web pages

16(c) Band 3 Application only

Band 3 applications are charged at on hourly rate of £120 and are invoiced in arrears. Please complete the details below which will be required for invoicing.
