Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation of environmental permits A (EPR/KP3994FG) and B (EPR/CP3694FW) referred to in the status logs below and the replacement of those permits with a consolidated environmental permit. This variation is to consolidate the permits for landfill areas 2 and 3 into one.

In addition, the variation is to:

- reduce the total amount of waste to be accepted at the site to zero;
- incorporate the Site Closure Plan dated 30 May 2008, and revised management plans for control of landfill gas and leachate;
- reduce monitoring frequencies for landfill gas, leachate, groundwater and surface water

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number
