Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

This report details the site visit made on the 23rd February 2021 to Dragon Waste Ltd. located at Maryport Street, Usk, Monmouthshire, NP15 1AB, permit number, EPR-DP3999FH.

Officer Greg GARDNER attended the Dragon Waste Ltd, Usk Facility to assess the suitability to surrender their environmental permit, EPR-DP3999FH. The inspection took place at 11:45am where I met with Mr. Jason EDWARDS (Technically Competent Manager). The weather was dry, and reasonably cold which it had also been the previous day.

To remind the operator, following each assessment Natural Resources Wales will produce a Compliance Assessment Report (CAR) detailing our comments from the audit. If we substantiate reasonably foreseeable risks or actual impact to the environment, we can breach the business against your permit conditions. This can affect your site banding and annual subsistence fees; scored on a Category 1 - 4 basis:

- 1 - Major, serious persistent and/or extensive impact on the people/property/environment
- 2 - Significant impact or effect on the environment/people/property
- 3 - Minor impact or effect on the environment/people/property
- 4 - A non-compliance which has no potential environmental effect

GENERAL OBSERVATIONS

Dragon Waste, Usk operates as a Household Waste Recycling Centre (HWRC) for public use in the Usk / Monmouthshire area and are seeking a low risk surrender for the whole Usk facility under permit EPR-DP3999FH. The site, dependant on the the permit being surrendered, will be used by Monmouthshire County Council as a car park. Access on to the site was restricted due to locked security gates. Attempts we made to gain access however the padlock had ceased and access on to the site was restricted.

To confirm, based upon the type of permit that is held as well as the activity that is / was held at this site, Dragon Waste Limited, Usk – (Permit Number - EPR-DP3999FH) would be eligible for a low risk surrender of the permit.

From initial observations, the site looked in good condition with the flooring infrastructure in tact with no concerns over the integrity. There was no waste residue other than vegetation fallout from nearby overhanging trees (as seen in photos 1, 2 and 3). There were some residual objects to be disposed of such as a traffic cone, empty barrel and signage (as seen in photo 4) as well as recycling banks (as seen in photo 5) which, according to Mr. EDWARDS would be removed by the council during the week commencing 1st March. Since the site visit, Mr. GILBY (Operations Manager, Viridor) has confirmed to me, via email, that these items have been removed on 05/03/21. The portacabin (as seen in photo 4) will remain and will be used by the council as a cabin for the parking attendant to use.

There was no evidence of any fly-tipping or contamination of land and overall the site was

in a good condition with no cause for concern at the time of the site inspection.

Further surrender advice has been issued separately. More information can be found on our website: [Natural Resources Wales / Apply to surrender a waste permit](#)

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
