Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

The site was visited on 21.06.2018 by Sian McGregor-Andrew and Matthew Kelk to carry out an Operator monitoring Assessment, covering emission points W1 and W2 for emissions to water.

All critical element requirements were met and an excellent overall score of 96% was achieved by the site. Site personnel demonstrated a high level of understanding of the monitoring and environmental permit requirements. A number of minor actions to improve future scores were identified:

Action: A scum board should be fitted to the discharge point of the east balancing lagoon to prevent potential contamination of samples with biological matter as per M18 guidance.

Action: A max/min thermometer is required for the sample storage fridge, relevant procedures should be updated to ensure that the fridge temperatures are monitored and remain within the range specified in M18 for BOD sample storage.

Action: WMX-EMS-0019 should refer specifically to the analytical methods required by the permit or agreed with NRW.

Action: internal audit record should record the particulars of the personnel collecting samples that have been assessed so that any deficiencies identified can be tracked back to the appropriate training plan.

For detailed comments please refer to the OMA audit report attached to this CAR form.

Evidence reviewed during the audit demonstrated compliance with conditions 2.10.1, 2.10.2, 2.10.6, 2.10.7, 2.10.8

Action: By 31/08/2018 please provide confirmation of the timescales for the above actions to be completed.
