4. Details of our assessment

As a part of Natural Resources Wales' (NRW) routine assessments for compliance the waste returns for Argoed Farm AD were reviewed.

G4 Reporting and notification to Natural Resources Wales - Cat 4

During the review of the waste returns for the period covering 1st July 2019 to 30th June 2020 on the 25th November 2020 it was noted that the returns for Q4 2019, Q1 2020 and Q2 2020 had not been submitted. Due to this, an email was sent to Mr Hughes on the 25/11/2020 requesting for the returns to be submitted at the earliest opportunity.

As all actions were not completed, a Compliance Assessment Report (CAR) (Report ID CAR_NRW0037452) was sent requesting Mr Hughes to submit both Q1 2020 and Q2 2020 by 31/03/20 and continue to submit waste returns by the expected deadlines. This action has not been completed therefore an additional category 3 breach has been scored.

All return deadlines are listed in the table below for your convenience.

1 July to 30 September	31 October

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
